Appendix 1 – version 1 acceptable user agreement

Appendix 2 – version 2 acceptable user agreement

Appendix 3 – version 3 acceptable user agreement

Appendix 4 – acceptable user agreement (staff, governance, volunteers and visitors)

Appendix 5 – online safety training needs – self audit tool for staff

Appendix 6 – Online Safety Incident Reporting Log

1. Aims

Our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and trustees
- Identify and support groups of pupils that are potentially at greater risk of harm online than others
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- Content – being exposed to illegal, inappropriate or harmful content, such as pornography, misinformation, disinformation (including fake news), conspiracy theories, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism
- Contact – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- Conduct – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g., consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- Commerce – risks such as online gambling, inappropriate advertising, phishing and/or financial scam

2. Legislation and guidance

This policy is based on the Department for Education's (DfE) statutory safeguarding guidance, [Keeping children safe in education 2026 \(comes into force from 1 September 2026\)](#), and its advice for schools on:

- [Teaching online safety in schools - GOV.UK](#)
- [Meeting digital and technology standards](#)
- [Preventing and tackling bullying](#) and [cyber-bullying: advice for principals and school staff](#)
- [Relationships and sex education \(RSE\) and health education](#)
- [Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

3. Roles and responsibilities

3.1 Governance

Governance has overall responsibility for monitoring this policy and holding the principal to account for its implementation.

Governance will ensure that all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

Governance will ensure that all staff will receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

Governance will ensure that regular meetings are held with the principal or appropriate staff to discuss online safety, requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

Governance will make sure that the principal plans a curriculum that ensures children and young people are taught how to keep themselves and others safe, including keeping safe online.

Governance will ensure the school has appropriate filtering and monitoring systems in place on school devices and school networks and will regularly review their effectiveness. Governance will review the DfE [DfE's filtering and monitoring standards](#) and discuss with the IT service provider what needs to be done to support the school in meeting those standards, which include:

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems.
- Reviewing filtering and monitoring provisions at least annually;
- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning;
- Having effective monitoring strategies in place that meet their safeguarding needs.

Governance will:

- Ensure they have read and understand this policy
- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 3)
- Ensure that online safety is a running and interrelated theme while devising and implementing their whole-school or college approach to safeguarding and related policies and/or procedures
- Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The Principal

The principal is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The Designated Safeguarding Lead (DSL)

Details of the school's designated safeguarding lead (DSL) and deputies are set out in our child protection and safeguarding policy and safeguarding adult policy as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

- Supporting the principal in ensuring that staff understand this policy and that it is being implemented consistently throughout the school
- Working with the principal and governance to review this policy annually and ensure the procedures and implementation are updated and reviewed regularly
- Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks
- Providing governance with assurance that filtering and monitoring systems are working effectively and reviewed regularly
- Working with the ICT manager/IT service provider to make sure the appropriate systems and processes are in place
- Working with the principal, ICT manager / IT service provider and other staff, as necessary, to address any online safety issues or incidents
- Managing all online safety issues and incidents in line with the school child protection policy
- Responding to safeguarding concerns identified by filtering and monitoring
- Ensuring that any online safety incidents are logged using CPOMS and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school Anti-Bullying Policy
- Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy
- Updating and delivering staff training on online safety (appendix 4 contains a self-audit for staff on online safety training needs)
- Liaising with other agencies and/or external services if necessary
- Providing regular reports on online safety in school to the principal and/or governance
- Undertaking annual risk assessments that consider and reflect the risks children face
- Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

This list is not intended to be exhaustive.

3.4 The ICT manager / IT Support Services (LM Global Technology).

The ICT manager / IT Support Services is responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
- Ensuring that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly
- Conducting a full security check and monitoring the school's ICT systems
- Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files
- Ensuring that any online safety incidents are logged using CPOMS and dealt with appropriately in line with this policy (appendix 6)
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy.

This list is not intended to be exhaustive.

3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 4), and ensuring that pupils follow the school's terms on acceptable use (appendices 1, 2 and 3)
- Knowing that the DSL is responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing by informing the DSL, principal and the school's IT service provider
- Following the correct procedures by, gaining authorisation from the principal to contact the IT service provider if they need to bypass the filtering and monitoring systems for educational purposes
- Working with the DSL to ensure that any online safety incidents are logged using CPOMS and dealt with appropriately in line with this policy (appendix 6)
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school Anti-Bullying Policy and Behaviour Policy
- Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

3.6 Parents/carers

Parents/carers are expected to:

- Notify a member of staff or the principal of any concerns or queries regarding this policy
- A copy of this policy will be sent home to parents for them to read to support their child with the acceptable use of the school's ICT systems and internet (appendices 1 and 2)

Parents can seek further guidance on keeping children/young adults safe online from the following organisations and websites:

- What are the issues? – [UK Safer Internet Centre](#)
- Online safety topics for parents/carers – [Childnet](#)
- Parent resource sheet – [Resources | Childnet](#)

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 4).

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum.

All schools have to teach:

- [Relationships education and health education](#) in primary schools
- [Relationships and sex education and health education](#) in secondary schools

As appropriate to each pupils' personalised pathway and stage of development, which acknowledges their current skills, knowledge and required support needs, pupils will cover the following topics at a level and graduated approach which is suitable to their individual ability to:

- Use technology safely, respectfully and responsibly, keeping personal information private
- Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies
- Recognise acceptable and unacceptable behaviour
- Be discerning in evaluating digital content
- That people sometimes behave differently online, including by pretending to be someone they are not
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous
- The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them
- How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met
- How information and data is shared and used online
- What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context)
- How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know
- The benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing
- How to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private
- Where and how to report concerns and get support with issues online
- Understand a range of ways to use technology safely, respectfully, responsibly and securely, including protecting their online identity and privacy
- Recognise inappropriate content, contact and conduct, and know how to report concerns
- To understand how changes in technology affect safety, including new ways to protect their online privacy and identity
- How to report a range of concerns
- Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online
- About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online
- Not to provide material to others that they would not want shared further and not to share personal material which is sent to them.

- What to do and where to get support to report material or manage issues online
- The impact of viewing harmful content
- That specifically sexually explicit material (e.g., pornography) presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners
- That sharing and viewing indecent images of children (including those created by children) is a criminal offence which carries severe penalties including jail
- How information and data is generated, collected, shared and used online
- How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours
- How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online)

The safe use of social media and the internet will also be covered in other subjects where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

5. Educating parents/carers about online safety

The school will raise parents/carers' awareness of internet safety in letters or other communications home, and in information via our website. This policy will also be shared with parents/carers.

Online safety will also be covered during parents' events.

The school will let parents/carers know:

- What systems the school uses to filter and monitor online use
- What their children are being asked to do online, including the sites they will be asked to access and who from the school (if anyone) their child will be interacting with online

If parents have any queries or concerns in relation to online safety, these should be raised in the first instance with the principal and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the principal.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of one person or group by another person or group, where the relationship involves an imbalance of power. (See also the school Anti-Bullying Policy.)

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, where appropriate, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Class teachers will discuss cyber-bullying with their groups.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governance and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

The school also sends information on cyber-bullying to parents so that they are aware of the signs, how to report it and how they can support children/young adults who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school anti-bullying policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.3 Examining electronic devices

The principal, and any member of staff authorised to do so by the principal, can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

- Poses a risk to staff or pupils, and/or
- Is identified in the school rules as a banned item for which a search can be carried out, and/or
- Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- Make an assessment of how urgent the search is, and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from the principal / DSL / appropriate staff member
- Explain to the pupil why they are being searched, how the search will happen, and give them the opportunity to ask questions about it
- Seek the pupil's co-operation

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a good reason to examine or erase data or files on an electronic device, staff must reasonably suspect that the data or file in question has been, or could be, used to:

- Cause harm, and/or
- Undermine the safe environment of the school or disrupt teaching, and/or
- Commit an offence

If inappropriate material is found on the device, it is up to the staff member in conjunction with the principal, DSL or other member of the senior leadership team to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding if there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the

material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- They reasonably suspect that its continued existence is likely to cause harm to any person, and/or
- The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member suspects a device may contain an indecent image of a child (also known as a nude or semi-nude image), they will:

- Not view the image
- Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [Searching, Screening and Confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [Sharing nudes and semi-nudes: advice for education settings working with children and young people \(updated March 2024\) - GOV.UK](#)

Any searching of pupils will be carried out in line with:

- The DfE's latest guidance on [Searching, Screening and Confiscation](#)
- UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

6.4 Artificial intelligence (AI)

Generative artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Gemini.

The school recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real. This includes deepfake pornography: pornographic content created using AI to include someone's likeness.

The school will treat any use of AI to bully pupils very seriously, in line with our anti-bullying policy.

Staff should be aware of the risks of using AI tools whilst they are still being developed and should carry out a risk assessment where new AI tools are being used by the school/trust, and where existing AI tools are used in cases which may pose a risk to all individuals that may be affected by it, including, but not limited to, pupils and staff.

7. Acceptable use of the internet in school

All pupils, parents/ carers, staff, volunteers and trustees are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1-3). Visitors will be expected to read and agree to the school's terms on acceptable use if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, trustees and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in appendices 1, 2, 3 and 4.

8. Pupils using mobile devices in school

Learners should not use their mobile phones or smartwatches during the school day, including during lessons, in the time between lessons, at breaktimes and at lunchtimes.

If any learner chooses to bring a phone or smartwatch into school, it is on the understanding that they agree with the following limitations:

- All mobile phones will be handed into the school office for safekeeping on arrival.

There are some exceptions for special circumstances when a learner's mobile phone can be used in school. This will be considered on a case-by-case basis. To request such permission, learners or parents/carers should contact a member of school's leadership team. Exceptional circumstances, include:

- Learners may collect phones for use on school trips and travelling to and from school on dedicated transport. When on school trips/activities offsite, the staff will liaise with the DSL and take advice from them. The staff leading the trip/activity will decide and enforce the time when learners will have access to their phones.
- Young carers who need to be contactable.
- Learners with diabetes who use their phones to monitor their blood sugar.

Any learners who are given permission must then adhere to the school's [code of conduct / acceptable use agreement] for mobile phone use (see appendix 1).

School does not accept responsibility for the security of phones and/or mobile devices brought into school.

Any breach of the acceptable use agreement by a pupil may result in the confiscation of their device and the device not being allowed in school.

9. Staff using work devices outside school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords can be made up of [three random words](#), in combination with numbers and special characters if required, or generated by a password manager
- Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device [the use of hard drives are not permitted in schools]
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Installing anti-virus and anti-spyware software
- Keeping operating systems up to date – always install the latest updates

Staff members must not use the device in any way which would violate the school's terms of acceptable use, as set out in appendix 4.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the ICT manager / ICT Support.

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on Anti-Bullying, Behaviour and E-safety Policies. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the Staff Disciplinary Procedures, Staff Code of Conduct and E-Safety Policy. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents which involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children/young adults are at risk of online abuse
- Children/young adults can abuse their peers online through:
 - Abusive, harassing, and misogynistic messages
 - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
 - Sharing of abusive images and pornography, to those who don't want to receive such content
- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- Develop better awareness to assist in spotting the signs and symptoms of online abuse
- Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh the risks up
- Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL and deputies will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governance will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy and safeguarding adult policy.

11.2 Pupils

All pupils will receive stage/age-appropriate training on safe internet use, including:

- Methods that hackers use to trick people into disclosing personal information
- Password security

- Social engineering
- The risks of removable storage devices (e.g. USBs)
- Multi-factor authentication
- How to report a cyber incident or attack
- How to report a personal data breach

Pupils will also receive stage/age-appropriate training on safeguarding issues such as cyberbullying and the risks of online radicalisation.

12. Monitoring arrangements

The DSL logs behaviour and safeguarding issues related to online safety through CPOMS. An incident report log can be found in appendix 6.

This policy will be reviewed every year by the Education Leadership Team. At every review, the policy will be shared with governance. The review will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

13. Links with other policies

This online safety policy is linked to our:

- Child Protection and Safeguarding Policy
- Safeguarding Adult Policy
- Anti-Bullying Policy
- Behaviour Policy
- STEP Policy
- Staff Code of Conduct
- Staff Disciplinary Procedures
- Data Protection Policy and Privacy Notices
- Complaints and Appeals
- E-Safety Policy
- Mobile Phone Policy

Appendix 1: version one - acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS

Name of pupil:

When I use the school's ICT systems (like computers) and get onto the internet in school I will:

- Ask a teacher or adult if I can do so before using them
- Only use websites that a teacher or adult has told me or allowed me to use
- Tell my teacher immediately if:
 - I select a website by mistake
 - I receive messages from people I don't know
 - I find anything that may upset or harm me or my friends
- Use school computers for school work only
- Be kind to others and not upset or be rude to them
- Look after the school ICT equipment and tell a teacher straight away if something is broken or not working properly
- Only use the username and password I have been given
- Try my hardest to remember my username and password
- Never share my password with anyone, including my friends
- Never give my personal information (my name, address or telephone numbers) to anyone without the permission of my teacher or parent/carers

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS

- Save my work on the school network
- Check with school staff before I print anything
- Log off or shut down a computer when I have finished using it

I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.

Signed (pupil):

Date:

Parent/carer agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet and will make sure my child understands these.

Signed (parent/carer):

Date:

Appendix 2: version two acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS

Name of pupil:

I will read and follow the rules in the acceptable use agreement policy

When I use the school's ICT systems (like computers) and get onto the internet in school I will:

- Always use the school's ICT systems and the internet responsibly and for educational purposes only
- Only use them when school staff are present, or with a staff's permission
- Keep my username and passwords safe and not share these with others
- Keep my private information safe at all times and not give my name, address or telephone number to anyone without the permission of school staff or parent/carer
- Tell a staff member immediately if I find any material which might upset, distress or harm me or others
- Always log off or shut down a computer when I'm finished working on it

I will not:

- Access any inappropriate websites including: social networking sites, chat rooms and gaming sites unless my staff member has expressly allowed this as part of a learning activity
- Open any attachments in emails, or follow any links in emails, without first checking with staff
- Create, link to or post any material that is pornographic, offensive, obscene or otherwise inappropriate
- Use any inappropriate language when communicating online, including in emails
- Log in to the school's network using someone else's details
- Arrange to meet anyone offline without first consulting my parent/carer, or without adult supervision

If I bring a personal mobile phone or other personal electronic device into school:

- I will hand my mobile phone or other such devices to the school office for safekeeping on arrival.
- I will not use my mobile phone or smartwatch during the school day, including during lessons, in the time between lessons, at breaktimes and at lunchtimes.

I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.

Signed (pupil):

Date:

Parent/carer's agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.

Signed (parent/carer):

Date:

ONLINE SAFETY POLICY

Appendix 3: version three - acceptable use agreement (pupils and parents/carers)

Parent/carer's agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.

Signed (parent/carer):

Date:

Appendix 4: acceptable use agreement (staff, governors, volunteers and visitors)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR STAFF, GOVERNORS, VOLUNTEERS AND VISITORS

Name of staff member/governor/volunteer/visitor:

When using the school's ICT systems and accessing the internet in school, or outside school on a work device (if applicable), I will not:

- Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material)
- Use them in any way which could harm the school's reputation
- Access social networking sites or chat rooms
- Use any improper language when communicating online, including in emails or other messaging services
- Install any unauthorised software, or connect unauthorised hardware or devices to the school's network
- Share my password with others or log in to the school's network using someone else's details
- Take photographs of pupils without first checking consent
- Share confidential information about the school, its pupils or staff, or other members of the community
- Access, modify or share data I'm not authorised to access, modify or share
- Promote private businesses, unless that business is directly related to the school

I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.

I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.

I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.

I will let the designated safeguarding lead (DSL) and LM Global Technologies know if a pupil informs me they have found any material which might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly and ensure that pupils in my care do so too.

Signed (staff member/governor/volunteer/visitor):
