1. AIMS

This policy aims to provide clear direction to all staff about expected understanding of:

- The appropriate action that is to be taken in a timely manner to safeguard and promote our children's welfare
- All staff statutory responsibilities with respect to safeguarding and dealing and responding to safeguarding issues
- Staff are appropriately trained in recognising and reporting safeguarding issues

Scope: This policy applies to learners under 18. Safeguarding arrangements for learners aged 18–25 are addressed through the college's safeguarding adults policy

2. LEGISLATION AND STATUTORY GUIDANCE

This policy is based on the Department for Education's statutory guidance Keeping Children Safe in Education (KCSIE) 2026 and Working Together to Safeguard Children 2026. The college also follows the safeguarding arrangements and procedures published by the Durham Safeguarding Children Partnership (DSCP) and other relevant local safeguarding partners and agencies.

Education and Training (Welfare of Children) Act 2021. As a special post-16 institution, the college is subject to the statutory safeguarding arrangements established for publicly funded post-16 education and training providers and must have regard to Keeping Children Safe in Education. Where section 175 of the Education Act 2002 applies to the college's institutional status, the college will also comply with that duty.

Children Act 1989, which provides the principal statutory framework for the care and protection of children, including duties and powers relating to children in need and children at risk of significant harm.

Children Act 2004, as amended by the Children and Social Work Act 2017, which establishes arrangements for safeguarding partners and multi-agency safeguarding arrangements.

Children and Social Work Act 2017, which strengthened local multi-agency safeguarding arrangements and the statutory framework for safeguarding children.

Children's Wellbeing and Schools Act 2026, where relevant provisions are in force. The college will implement any applicable duties arising from the Act and associated statutory guidance as they commence.

Female Genital Mutilation Act 2003, as amended by the Serious Crime Act 2015, including the mandatory reporting duty for teachers where the statutory criteria are met, together with the relevant multi-agency statutory guidance on FGM.

Counter-Terrorism and Security Act 2015, section 26, and the current Prevent duty guidance for England and Wales, requiring specified authorities to have due regard to the need to prevent people from being drawn into terrorism.

Safeguarding Vulnerable Groups Act 2006, as amended, and relevant Disclosure and Barring Service arrangements, which establish the framework for regulated activity and safeguarding checks in relation to children.

Rehabilitation of Offenders Act 1974, as amended, and associated legislation and guidance governing the consideration of criminal records in safer recruitment.

Equality Act 2010, including the Public Sector Equality Duty where applicable, which requires the college to prevent unlawful discrimination, harassment and victimisation and to make reasonable adjustments for disabled learners.

Human Rights Act 1998, which provides the framework for protecting relevant rights and freedoms when safeguarding and responding to concerns about abuse, neglect, exploitation and harassment.

UK General Data Protection Regulation and Data Protection Act 2018, together with current information-sharing guidance, which provide the framework for lawful processing and sharing of personal information. Data protection legislation does not prevent the sharing of information where there is a lawful basis to safeguard children.

Where the college provides childcare to which the relevant statutory requirements apply, it will also comply with the Childcare Act 2006 and the Childcare (Disqualification) Regulations 2018, as amended.

3. DEFINITIONS

Safeguarding and promoting the welfare of children means:

- Providing help and support to meet the needs of children as soon as problems emerge
- Protecting children from maltreatment whether that is within or outside the home, including online
- Preventing impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes

CHILD PROTECTION is part of this definition and refers to activities undertaken to protect specific children who are suspected to be suffering, or likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online.

ABUSE is a form of maltreatment of a child and may involve inflicting harm or failing to act to prevent harm. Appendix 1 explains the different types of abuse.

Appendix 1 explains the different types of abuse.

NEGLECT is a form of abuse and is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Appendix 1 defines neglect in more detail.

Sharing of nudes and semi-nudes (also known as sexting or youth-produced sexual imagery) is where children share nude or semi-nude images, videos or live streams. This also includes pseudo-images that are computer-generated images that otherwise appear to be a photograph or video.

CHILDREN include everyone under the age of 18.

The following 3 safeguarding partners are identified in Keeping Children Safe in Education (and defined in the Children Act 2004, as amended by chapter 2 of the Children and Social Work Act 2017). They will make arrangements to work together to safeguard and promote the welfare of local children, including identifying and responding to their needs:

- The local authority (LA)
- Integrated care boards (previously known as clinical commissioning groups) for an area within the LA
- The chief officer of police for a police area in the LA area

Victim is a widely understood and recognised term, but we understand that not everyone who has been subjected to abuse considers themselves a victim or would want to be described that way. When managing an incident, we will be prepared to use any term that the child involved feels most comfortable with.

Alleged perpetrator(s) and **perpetrator(s)** are widely used and recognised terms. However, we will think carefully about what terminology we use (especially in front of children) as, in some cases, abusive behaviour can be harmful to the perpetrator too. We will decide what's appropriate and which terms to use on a case-by-case basis.

4. EQUALITY STATEMENT

Some children have an increased risk of abuse, both online and offline, and additional barriers can exist for some children with respect to recognising or disclosing it. We are committed to anti-discriminatory practice and recognise children's diverse circumstances. We ensure that all children have the same protection, regardless of any barriers they may face.

We give special consideration to children who:

- Have special educational needs and disabilities (SEND) or health conditions (see section 10)
- Are young carers
- May experience discrimination due to their race, ethnicity, religion, gender identification or sexuality
- Have English as an additional language (EAL)
- Are known to be living in difficult situations – for example, temporary accommodation or where there are issues such as substance abuse or domestic violence
- Are at risk of female genital mutilation (FGM), sexual exploitation, forced marriage, or radicalisation
- Are asylum seekers
- Are at risk due to either their own or a family member's mental health needs

- Are looked after or previously looked after (see section 12)
- Are missing or absent from education for prolonged periods and/or frequently
- Whose parent/carer has expressed an intention to remove them from college to be home educated

5. ROLES AND RESPONSIBILITIES

Safeguarding and child protection is everyone's responsibility. This policy applies to all staff, volunteers and trustees in the college and is consistent with the procedures of our safeguarding partners. Our policy and procedures also apply to extended college and off-site activities.

The college plays a crucial role in preventative education. This is in the context of a whole-college approach to preparing children for life in modern Britain, and a culture of zero tolerance of sexism, misogyny/misandry, homophobia, biphobia and sexual violence/harassment, racism, faith-based prejudice and discrimination. This will be underpinned by our:

- Behaviour policy
- Pastoral support system
- Planned Tutorials Programme which is inclusive and delivered regularly, tackling issues such as:
 - Healthy and respectful relationships
 - Boundaries and consent
 - Stereotyping, prejudice and equality
 - Body confidence and self-esteem
 - How to recognise an abusive relationship (including coercive and controlling behaviour)
 - The concepts of, and laws relating to, sexual consent, sexual exploitation, abuse, grooming, coercion, harassment, rape, domestic abuse, so-called honour-based violence such as forced marriage and female genital mutilation (FGM) and how to access support
 - What constitutes sexual harassment and sexual violence and why they're always unacceptable

5.1 All Staff

All staff will:

- Read and understand Part One of the Department for Education's statutory safeguarding guidance, *Keeping Children Safe in Education* (2026), and review this guidance at least annually. All staff, including those who do not work directly with children, are expected to read Part One in full.
- Sign a declaration at the beginning of each academic year to say that they have reviewed the guidance
- Reinforce the importance of online safety when communicating with parents and carers. This includes making parents and carers aware of what we ask children to do online (e.g. sites they need to visit or who they'll be interacting with online).
- Provide a safe space for children who are LGBTQ+ to speak out and share their concerns

All staff will be aware of:

- Our systems that support safeguarding, including this child protection and safeguarding policy, the staff code of conduct, the role and identity of the designated safeguarding lead (DSL) and deputies, the behaviour policy, the online safety policy that includes the expectations, applicable roles and responsibilities in relation to filtering and monitoring, and the safeguarding response to children who go missing from education/who are absent from education. The family help assessment process and their role in it, including identifying emerging problems, liaising with the DSL, and sharing information with other professionals to support early identification and assessment
- The process for making referrals to local authority children's social care and for statutory assessments that may follow a referral, including the role they might be expected to play
- What to do if they identify a safeguarding issue or a child tells them they are being abused or neglected, including specific issues such as FGM, and how to maintain an appropriate level of confidentiality while liaising with relevant professionals
- The signs of different types of abuse and neglect, as well as specific safeguarding issues, such as child-on-child abuse, child sexual exploitation (CSE), Prejudice-based harm, Faith-targeted abuse, child criminal exploitation (CCE), indicators of being at risk from or involved with serious violent crime, FGM, radicalisation and serious violence (including that linked to county lines)
- New and emerging threats, including online harm, grooming, sexual exploitation, criminal exploitation, radicalisation, and the role of technology and social media in presenting harm
- The importance of reassuring victims that they are being taken seriously and that they will be supported and kept safe
- The fact that young people can be at risk of harm inside and outside of their home, at college and online
- The fact that young people who are (or who are perceived to be) lesbian, gay, bi or trans (LGBTQ+) can be targeted by other children
- That a child and their family may be experiencing multiple needs at the same time
- What to look for to identify young people who need help or protection

Section 16 and appendix 4 of this policy outline in more detail how staff are supported to do this.

5.2 The Designated Safeguarding Lead (DSL)

The DSL is a member of the senior leadership team. Our DSL is Fay Strong (Principal), Nicola Dunn (Vice Principal) and Lee Simpson (Vice Principal). The DSL takes lead responsibility for child protection and wider safeguarding. This includes online safety and understanding our filtering and monitoring processes on college devices and college networks to keep children safe online.

During term time, the DSL will be available during college hours for staff to discuss any safeguarding concerns.

The DSL can also be contacted out of college hours in the event of an emergency by emailing fay.stong@ne-as.org.uk.

The DSL will be given the time, funding, training, resources and support to:

- Provide advice and support to other staff on child welfare and child protection matters
- Take part in strategy discussions and inter-agency meetings and/or support other staff to do so
- Contribute to the assessment of young people
- Refer suspected cases, as appropriate, to the relevant body (local authority children's social care, Channel programme, Disclosure and Barring Service, and/or police), and support staff who make such referrals directly
- Have a good understanding of harmful sexual behaviour
- Have a good understanding of the filtering and monitoring systems and processes in place at our college
- Ensure that staff have appropriate prevent training
- Prevent lead is Fay Strong

The DSL will also:

- Liaise with local authority case managers and designated officers for child protection concerns as appropriate.
- Discuss the local response to sexual violence and sexual harassment with police and local authority children's social care colleagues to prepare the college's policies
- Be confident that they know what local specialist support is available to support all young people involved (including victims and alleged perpetrators) in sexual violence and sexual harassment, and be confident as to how to access this support
- Be aware that children must have an 'appropriate adult' to support and help them in the case of a police investigation or search

The full responsibilities of the DSL and deputies are set out in their job description

5.3 Governance

Governance will:

- Facilitate a whole-college approach to safeguarding, ensuring that safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development
- Evaluate and approve this policy at each review, ensuring it complies with the law, and hold the Principal to account for its implementation
- Be aware of its obligations under the Human Rights Act 1998, the Equality Act 2010 (including the Public Sector Equality Duty), and our college's local multi-agency safeguarding arrangements
- Appoint a senior board level (or equivalent) lead to monitor the effectiveness of this policy in conjunction with the full governing board. This is always a different person from the DSL
- Ensure all staff undergo safeguarding and child protection training, including online safety, and that such training is regularly updated and is in line with advice from the safeguarding partners.

- Ensure that the college has appropriate filtering and monitoring systems in place, and review their effectiveness, this includes:
 - Making sure that the leadership team and staff are aware of the provisions in place, and that they understand their expectations, roles and responsibilities around filtering and monitoring as part of safeguarding training
 - Reviewing the DfE's filtering and monitoring standards, and discussing with IT staff and service providers what needs to be done to support the college in meeting these standards

Make sure:

- The DSL has the appropriate status and authority to carry out their job, including additional time, funding, training, resources and support
- Online safety is a running and interrelated theme within the whole-college approach to safeguarding and related policies
- The DSL has lead authority for safeguarding, including online safety and understanding the filtering and monitoring systems and processes in place
- The college has procedures to manage any safeguarding concerns (no matter how small) or allegations that do not meet the harm threshold (low-level concerns) about staff members (including supply staff, volunteers and contractors). Appendix 3 of this policy covers this procedure
- That this policy reflects those young people with SEND, or certain medical or physical health conditions, can face additional barriers to any abuse or neglect being recognised

Where another body is providing services or activities (regardless of whether or not the young people who attend these services/activities are young people on the college roll):

- Seek assurance that the other body has appropriate safeguarding and child protection policies/procedures in place, and inspect them if needed
- Make sure there are arrangements for the body to liaise with the college about safeguarding arrangements, where appropriate
- Make sure that safeguarding requirements are a condition of using the college premises, and that any agreement to use the premises would be terminated if the other body fails to comply

All trustees will read Keeping Children Safe in Education in its entirety.

The Director of Education/Chief Executive Officer will act as the 'case manager' in the event that an allegation of abuse is made against the Principal, where appropriate (see appendix 3).

Section 15 of this policy has information on how trustees are supported to fulfil their role.

5.4 The Principal

The Principal is responsible for the implementation of this policy, including:

- Ensuring that staff (including temporary staff) and volunteers are:
 - Are informed of our systems which support safeguarding, including this policy, as part of their induction

- Understand and follow the procedures included in this policy particularly those concerning referrals of cases of suspected abuse and neglect
- Communicating this policy to parents when their child joins the college and via the college website
- Ensuring that the DSL has appropriate time, funding, training and resources, and that there is always adequate cover if the DSL is absent
- Acting as the 'case manager' in the event of an allegation of abuse made against another member of staff or volunteer, where appropriate (see appendix 3)
- Making decisions regarding all low-level concerns, though they may wish to collaborate with the DSL on this
- Ensuring the relevant staffing ratios are met

5.5 Virtual School Heads

Virtual School Heads have a non-statutory strategic leadership role in promoting the educational outcomes of children with a social worker. The college will work constructively with the relevant Virtual School Head where this is appropriate.

VSHs also have a non-statutory responsibility to promote the educational achievement of children in kinship care (children who live with a relative or close family friend).

They should also identify and engage with key professionals, e.g. DSLs special educational needs coordinators (SENCOs), social workers, mental health leads and others.

6 CONFIDENTIALITY

All personal information will be retained in line with the society's Record Keeping and GDPR and Data Protection Policy. All written records will be kept in a secure area and system which is access controlled. All records will also be destroyed in line with our records management policy. We will ensure that access is available for those who need to know, but for all others it will remain absolutely confidential. Please refer to Thornbeck College (GDPR) Policy.

Thornbeck College will ensure that:

- Timely information sharing is essential to effective safeguarding
- Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare, and protect the safety, of young people
- The Data Protection Act (DPA) 2018 and UK GDPR do not prevent, or limit, the sharing of information for the purposes of keeping young people safe
- If staff need to share 'special category personal data', the DPA 2018 contains 'safeguarding of children and individuals at risk' as a processing condition that allows practitioners to share information without consent. If it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk
- Staff should never promise a child that they will not tell anyone about a report of abuse, as this may not be in the child's best interests
- If a victim asks the college not to tell anyone about the sexual violence or sexual harassment:

- There's no definitive answer, because even if a victim doesn't consent to sharing information, staff may still lawfully share it if there's another legal basis under the UK GDPR that applies
- The DSL will have to balance the victim's wishes against their duty to protect the victim and other young people
- The DSL should consider that:
 - Parents or carers should normally be informed (unless this would put the victim at greater risk)
 - The basic safeguarding principle is if a child is at risk of harm, a referral should be made to local authority children's social care.
 - If a child has been harmed or is in immediate danger this must be referred to the police
 - Rape, assault by penetration and sexual assault are crimes. Where a report of rape, assault by penetration or sexual assault is made, this should be referred to the police. While the age of criminal responsibility is 10, if the alleged perpetrator is under 10, the starting principle of referring to the police remains
- Regarding anonymity, all staff will:
 - Be aware of anonymity, witness support and the criminal process in general where an allegation of sexual violence or sexual harassment is progressing through the criminal justice system
 - Do all they reasonably can to protect the anonymity of any young people involved in any report of sexual violence or sexual harassment, for example, carefully considering which staff should know about the report, and any support for young people involved
 - Consider the potential impact of social media in facilitating the spreading of rumours and exposing victims' identities
- The information sharing advice for safeguarding practitioners includes 7 'golden rules' for sharing information, and will support staff who have to make decisions about sharing information
- If staff are in any doubt about sharing information, they should speak to the designated safeguarding lead (or deputy) and the designated data protection officer.
- Confidentiality is also addressed in this policy with respect to record-keeping in section 14, and allegations of abuse against staff in appendix 3

7 RECOGNISING ABUSE AND TAKING ACTION

All staff are expected to be able to identify and recognise all forms of abuse, neglect and exploitation and shall be alert to the potential need for family help for a child who:

- Has a disability
- Has special educational needs (whether or not they have a statutory education health and care (EHC) plan)
- Is a young carer
- Is bereaved

- Is showing signs of being drawn into anti-social or criminal behaviour, including being affected by gangs and county lines and organised crime groups and/or serious violence, including knife crime
- Is frequently missing/goes missing from education, care or home
- Is at risk of modern slavery, trafficking, sexual and/or criminal exploitation
- Is at risk of being radicalised or exploited
- Is viewing problematic and/or inappropriate online content (for example, linked to violence), or developing inappropriate relationships online
- Is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse
- Is misusing drugs or alcohol
- Is suffering from mental ill health
- Has returned home to their family from care
- Is at risk of so-called 'honour'-based abuse such as female genital mutilation (FGM) or forced marriage
- Is a privately fostered child
- Has a parent or carer in custody or is affected by parental offending
- 7s missing education, or persistently absent from college, or not in receipt of full-time education
- Has experienced multiple suspensions and is at risk of, or has been permanently excluded

Staff, volunteers and trustees must follow the procedures set out below in the event of a safeguarding issue.

Please note – in this and subsequent sections, you should take any references to the DSL to mean “the DSL (or deputy DSL)”.

7.1 If a child is suffering or likely to suffer from harm, or in immediate danger:

Make a referral to children’s social care and/or the police **immediately** if you believe a child is suffering or likely to suffer from harm, or in immediate danger. **Anyone can make a referral.**

Where an allegation arises from suspicions of abuse, the member of staff who first becomes aware of the allegation, must bring this immediately or as soon as practically possible to the attention of a Designated Safeguarding Lead. If the concerns are regarding a Designated Safeguarding Lead, staff must approach the Principal. The DSL will ensure that any reported incidents of abuse follow the legislation and statutory guidance for child protection and safeguarding adults.

The first person becoming aware of potential abuse does not have the responsibility to make a judgment about the validity of allegations or the seriousness of such but must make known those allegations to the Designated Safeguarding Lead. When presented with an allegation or suspicion of abuse, the alerting member of staff should assess whether anyone is at risk or is in immediate danger. Then take any reasonable steps **within their role** to protect any person who may be at immediate risk or harm, for example:

- Call the Police if a crime has taken place or is believed to have taken place
- Call an ambulance or GP if someone needs urgent medical attention
- Separate the alleged victim and alleged perpetrator, only if it is safe to do so. **Staff should never put themselves at risk**
- Take responsible steps to preserve any evidence, if at a potential crime scene
- Report concerns, verbally, to a Designated Safeguarding Lead as soon as practically possible
- Make a written account of what has happened, or of what has been noticed or said, as soon as possible; remembering to record facts and not to make assumptions
- Do not approach, confront or interview the alleged perpetrator unless this is within their role and is necessary to do so to ensure the safety or well-being of others. If necessary the Alerter should try and obtain advice (preferably from Police) before doing so.

Tell the DSL (see section 5) as soon as possible if you make a referral directly.

To make a referral contact:

Child abuse can also be reported to the local council – please follow the link below:

<https://www.gov.uk/report-child-abuse-to-local-council>

7.1 If a child makes a disclosure

If a child discloses a safeguarding issue to you, you should:

- Listen to and believe them. Allow them time to talk freely and do not ask leading questions
- Stay calm and do not show that you are shocked or upset
- Tell the child they have done the right thing in telling you. Do not tell them they should have told you sooner
- Explain what will happen next and that you will have to pass this information on. Do not promise to keep it a secret
- Verbally inform a DSL as soon as possible
- Complete a written CPOMs record as soon as possible, to alert the DSL in the child's own words. Stick to the facts, and do not put your own judgement on it. In situations where there is a potential that the child is at risk of harm, speak to a DSL immediately.
- Alternatively, if appropriate, make a referral to children's social care and/or the police directly (see 7.1), and tell the DSL as soon as possible that you have done so. Aside from these people do not disclose the information to anyone else unless told to do so by a relevant authority involved in the safeguarding process

If someone discloses that they have experienced or are experiencing abuse, **you should not:**

- Staff are not to investigate they are simply listening to what the person has to tell them. Open questions should be asked, such as "what did you mean by that?" Care should be taken that words are not put into the person's mouth by asking leading questions such as "when you said that did you mean....?"
- Stop someone who is freely recalling significant events, as they may not speak about it again.
- Promise to keep secrets. Even if the person asks not to tell anyone, it must be explained in a way they understand, that we have a Duty of Care to pass on the information. It may help to explain that the information is only being passed to those who 'need to know' and that this is being done because of the concerns about them
- Give unrealistic expectations or guarantees regarding confidentiality or safety by saying, for example, "Don't worry this will never happen to you again."
- Be judgmental.
- Tell anybody that doesn't need to know.
- Contact the alleged perpetrator or anyone who might be in touch with him or her.

Bear in mind that some young people may:

- Not feel ready, or know how to tell someone that they are being abused, exploited or neglected
- Not recognise their experiences as harmful
- Feel embarrassed, humiliated or threatened. This could be due to their vulnerability, disability, sexual orientation and/or language barriers

None of this should stop you from having a 'professional curiosity' and speaking to the DSL if you have concerns about a child.

7.3 If you discover that FGM has taken place, or a child is at risk of FGM:

The Department for Education's Keeping Children Safe in Education explains that FGM comprises "all procedures involving partial or total removal of the external female genitalia, or other injury to the female genital organs".

FGM is illegal in the UK and a form of child abuse with long-lasting, harmful consequences. It is also known as 'female genital cutting', 'circumcision' or 'initiation'.

Possible indicators that a child has already been subjected to FGM, and factors that suggest a child may be at risk, are set out in appendix 4 of this policy.

Any tutor who either:

- Is informed by a girl under 18 that an act of FGM has been carried out on her, or
- Observes physical signs that appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe that the act was necessary for the girl's physical or mental health or for purposes connected to labour or birth

Must immediately report this to the police, personally. This is a mandatory statutory duty and teachers will face disciplinary sanctions for failing to meet it.

Unless they have been specifically told not to disclose, they should also discuss the case with the DSL and involve children's social care as appropriate.

Any other member of staff who discovers that an act of FGM appears to have been carried out on a **child under or over 18** must speak to the DSL and follow our local safeguarding procedures.

The duty for teachers mentioned above does not apply in cases where a child is at risk of FGM or FGM is suspected but is not known to have been carried out. Staff should not examine children.

Or Please follow this link below to access local procedures regarding FGM:

https://www.proceduresonline.com/durham/scb/p_hbv_forced_mar_fgm.html#fgm

7.4 If you have concerns about a child (as opposed to believing a child is suffering or likely to suffer from harm, or is in immediate danger):

Figure 1 below, before section 7.7, illustrates the procedure to follow if you have any concerns about a child's welfare.

Where possible, speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or take advice from local authority children's social care. You can also seek advice at any time from the NSPCC helpline on 0808 800 5000. Share details of any actions you take with the DSL as soon as practically possible.

Make a referral to the local authority children's social care directly, if appropriate (see 'Referral' below). Share any action taken with the DSL as soon as possible.

Family Help Assessment

If a family help assessment is appropriate, the DSL will generally lead on liaising with other agencies and setting up an inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in a family help assessment, in some cases acting as the lead practitioner.

We will discuss and agree, with statutory safeguarding partners, levels for the different types of assessment, as part of local arrangements.

The DSL will keep the case under constant review and the college will consider a referral to local authority children's social care if the situation does not seem to be improving. Timelines of interventions will be monitored and reviewed.

Referral

If it is appropriate to refer the case to local authority children's social care or the police, the DSL will make the referral or support you to do so. If you make a referral directly (see section 7), you must tell the DSL as soon as possible.

The local authority will make a decision within one working day of a referral about what course of action to take and will let the person who made the referral know the outcome. The DSL or person who made the referral must follow up with the local authority if this information is not made available, and ensure outcomes are properly recorded.

If the child's situation does not seem to be improving after the referral, the DSL or person who made the referral must follow local escalation procedures to ensure their concerns have been addressed and that the child's situation improves.

Please find link below to access local procedures for referral and escalation: Family help

7.5 If you have concerns about extremism:

If a child is not suffering or likely to suffer from harm, or in immediate danger, where possible speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or seek advice from local authority children's social care. Make a referral to local authority children's social care directly, if appropriate (see 'Referral' above). Inform the DSL or deputy as soon as practically possible after the referral.

Where there is a concern, the DSL will consider the level of risk and decide which agency to make a referral to. This could include Channel, the government's programme for identifying and supporting individuals at risk of being drawn into terrorism, or the local authority children's social care team.

The Department for Education also has a dedicated telephone helpline, 020 7340 7264, which college staff and governors can call to raise concerns about extremism with respect to a child. You can also email counter.extremism@education.gov.uk. Note that this is not for use in emergency situations. In an emergency, call 999 or the confidential anti-terrorist hotline on 0800 789 321 if you:

- Think someone is in immediate danger
- Think someone may be planning to travel to join an extremist group
- See or hear something that may be terrorist-related

7.6 If you have a concern about mental health

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff will be alert to behavioural signs that suggest a child may be experiencing a mental health problem or be at risk of developing one.

If you have a mental health concern about a child that is also a safeguarding concern, take immediate action by following the steps in section 7.4

If you have a mental health concern that is not also a safeguarding concern, speak to the DSL to agree a course of action.

Further information regarding procedures for identifying possible mental health problems including routes to escalate and referral can be found in the College's Mental Health Policy (current version).

Figure 1: procedure if you have concerns about a child's welfare (as opposed to believing a child is suffering or likely to suffer from harm, or in immediate danger)

(Note - if the DSL is unavailable, this should not delay action. See section 7.4 for what to do.)

7.7 Concerns about a staff member, supply teacher, volunteer or contractor

Any allegation or concern regarding a staff member (including a supply teacher, volunteer or contractor), must be reported directly to the Principal, together with completion of the Staff Allegation/Concern Reporting Form. Where the allegation or concern involves the Principal, it must instead be reported immediately to the Director of Education, with the completed form submitted directly to them. In all cases involving safeguarding or child protection, where there is risk of harm to a child, the Local Authority Designated Officer (LADO) must be informed without delay, in line with statutory requirements.

The full reporting and investigation procedure is provided in Appendix 3. All staff must be familiar with this procedure and follow it immediately when a concern arises.

The Principal/Director of Education will then follow the procedures set out in Appendix 3, if appropriate.

Where you believe there is a conflict of interest in reporting a concern or allegation about a member of staff (including a supply teacher, volunteer or contractor) to the Society's senior management team report it directly to the local authority designated officer (LADO).

If you receive an allegation relating to an incident where an individual or organisation was using the college premises for running an activity for young people, follow our college safeguarding policies and procedures.

7.8 Allegations of abuse made against other children:

We recognise that young people are capable of abusing their peers. Abuse will never be tolerated or passed off as "banter", "just having a laugh" or "part of growing up". As this can lead to a culture of unacceptable behaviours and an unsafe environment for children.

All child-on-child abuse is unacceptable and will be taken seriously.

Most cases of children hurting other children will be dealt with under our college's behaviour policy, but this child protection and safeguarding policy will apply to any allegations that raise safeguarding concerns. This might include where the alleged behaviour:

- Is serious, and potentially a criminal offence
- Could put children in the college at risk
- Is violent
- Involves children being forced to use drugs or alcohol
- Involves sexual exploitation, sexual abuse or sexual harassment, such as indecent exposure, sexual assault, upskirting or sexually inappropriate pictures or videos (including the sharing of nudes and semi-nudes)
- Discriminatory behaviour including racism and faith-based targeted abuse

See appendix 4 for more information about child-on-child abuse

Procedures for dealing with allegation of child-on-child abuse:

If a child makes an allegation of abuse against another child:

- You must record the allegation and tell the DSL, but do not investigate it
- The DSL will contact the local authority children's social care team and follow its advice, as well as the police if the allegation involves a potential criminal offence
- The DSL will put a risk assessment and support plan into place for all young people involved (including the victim(s), the child(ren) against whom the allegation has been made and any others affected) with a named person they can talk to if needed. This will include considering college transport as a potentially vulnerable place for a victim or alleged perpetrator(s).
- The DSL will contact the children and adolescent mental health services (CAMHS), if appropriate

If the incident is a criminal offence and there are delays in the criminal process, the DSL will work closely with the police (and other agencies as required) while protecting children and/or taking any disciplinary measures against the alleged perpetrator. We will ask the police if we have any questions about the investigation

- Follow the college reporting and recording procedure in line with child protection and safeguarding

Creating a supportive environment in college and minimising the risk of child-on-child abuse:

We recognise the importance of taking proactive action to minimise the risk of child-on-child abuse, and of creating a supportive environment where victims feel confident in reporting incidents.

To achieve this, we will:

- Challenge any form of derogatory or sexualised language or inappropriate behaviour between peers, including requesting or sending sexual images
- Be vigilant to issues that particularly affect different genders – for example, sexualised or aggressive touching or grabbing towards female children, and initiation or hazing type violence with respect to boys
- Ensure our curriculum helps to educate children about appropriate behaviour and consent
- Ensure children are able to easily and confidently report abuse using our reporting systems (as described in section 7.10 below)
- Ensure staff reassure victims that they are being taken seriously
- Be alert to reports of sexual violence and/or harassment that may point to environmental or systemic problems that could be addressed by updating policies, processes and the curriculum, or could reflect wider issues in the local area that should be shared with safeguarding partners

- Support children who have witnessed sexual violence, especially rape or assault by penetration. We will do all we can to make sure the victim, alleged perpetrator(s) and any witnesses are not bullied or harassed
- Consider intra familial harms and any necessary support for siblings following a report of sexual violence and/or harassment
- Ensure staff are trained to understand:
 - How to recognise the indicators and signs of child-on-child abuse, and know how to identify it and respond to reports
 - That even if there are no reports of child-on-child abuse in college, it does not mean it is not happening – staff should maintain an attitude of “it could happen here”
 - That if they have any concerns about a child’s welfare, they should act on them immediately rather than wait to be told, and that victims may not always make a direct report. For example:
 - Children can show signs or act in ways they hope adults will notice and react to
 - A friend may make a report
 - A member of staff may overhear a conversation
 - A child’s behaviour might indicate that something is wrong
 - That certain children may face additional barriers to telling someone because of their vulnerability, disability, gender, ethnicity and/or sexual orientation
 - That a child harming a peer could be a sign that the child is being abused themselves, and that this would fall under the scope of this policy
 - The important role they have to play in preventing child-on-child abuse and responding where they believe a child may be at risk from it
 - That they should speak to the DSL if they have any concerns
 - That social media is likely to play a role in the fall-out from any incident or alleged incident, including for potential contact between the victim, alleged perpetrator(s) and friends from either side.

The DSL will take the lead role in any disciplining of the alleged perpetrator(s). We will provide support at the same time as taking any disciplinary action.

Disciplinary action can be taken while other investigations are going on, e.g., by the police. The fact that another body is investigating or has investigated an incident doesn’t (in itself) prevent our college from coming to its own conclusion about what happened and imposing a penalty accordingly. We will consider these matters on a case-by-case basis, taking into account whether:

- Taking action would prejudice an investigation and/or subsequent prosecution – we will liaise with the police and/or LA child’s social care to determine this
- There are circumstances that make it unreasonable or irrational for us to reach our own view about what happened while an independent investigation is ongoing.

7.9 Sharing of nudes or semi-nudes (‘sexting’):

The following approach is based on guidance from the UK Council for Internet Safety and Department for Science, Innovation and Technology for all staff and for DSLs and senior leaders.

Your responsibilities when responding to an incident:

If you are made aware of an incident involving the consensual or non-consensual sharing of nude or semi-nude images/videos, including pseudo-images, which are computer-generated images that otherwise appear to be a photograph or video (also known as 'sexting' or 'youth produced sexual imagery'), you must report it to the DSL immediately.

You must **not**:

- View, copy, print, share, store or save the imagery yourself, or ask a child to share or download it (if you have already viewed the imagery by accident, you must report this to the DSL)
- Delete the imagery or ask the child to delete it
- Ask the child(s) who are involved in the incident to disclose information regarding the imagery (this is the DSL's responsibility)
- Share information about the incident with other members of staff, the child(s) it involves or their, or other, parents and/or carers
- Say or do anything to blame or shame any young people involved

You should explain that you need to report the incident and reassure the child(s) that they will receive support and help from the DSL.

Initial review meeting:

Following a report of an incident, the DSL will hold an initial review meeting with appropriate college staff – this may include the staff member who reported the incident and the safeguarding or leadership team that deals with safeguarding concerns. This meeting will consider the initial evidence and aim to determine:

- Whether there is an immediate risk to child(s)
- If a referral needs to be made to the police and/or children's social care
- If it is necessary to view the imagery in order to safeguard the young person (in most cases, imagery should not be viewed)
- What further information is required to decide on the best response
- Whether the imagery has been shared widely and via what services and/or platforms (this may be unknown)
- Whether immediate action should be taken to delete or remove images from devices or online services
- Any relevant facts about the children involved which would influence risk assessment
- If there is a need to contact another college, college, setting or individual
- Whether to contact parents or carers of the children involved (in most cases parents should be involved)

The DSL will make an immediate referral to police and/or children's social care if:

- The incident involves an adult. Where an adult poses as a child to groom or exploit a child or young person, the incident may first present as a child-on-child incident. See appendix 4 for more information on assessing adult-involved incidents

- There is reason to believe that a young person has been coerced, blackmailed or groomed, or if there are concerns about their capacity to consent (for example owing to special educational needs)
- What the DSL knows about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent
- The imagery involves sexual acts and any child in the images or videos is under 13
- The DSL has reason to believe a child is at immediate risk of harm owing to the sharing of the nudes or semi-nudes (for example, the young person is presenting as suicidal or self-harming)

If none of the above apply then the DSL, in consultation with the Principal and other members of staff as appropriate, may decide to respond to the incident without involving the police or children's social care. The decision will be made and recorded in line with the procedures set out in this policy

Further review by the DSL:

If at the initial review stage, a decision has been made not to refer to police and/or children's social care, the DSL will conduct a further review to establish the facts and assess the risk.

They will hold interviews with the children involved (if appropriate).

If at any point in the process there is a concern that a child has been harmed or is at risk of harm, a referral will be made to children's social care and/or the police immediately.

Informing parents/carers:

The DSL will inform parents/carers at an early stage and keep them involved in the process, unless there is a good reason to believe that involving them would put the child at risk of harm.

Referring to the police:

If it is necessary to refer an incident to the police, this will be done through contacting the police community support officer, local neighbourhood police, and/or dialling 999/101.

Recording incidents:

All incidents of sharing of nudes and semi-nudes and the decisions made in responding to them will be recorded. The record-keeping arrangements set out in the Record Keeping section of this policy also apply to recording incidents.

Curriculum coverage:

Children are taught about the issues surrounding sharing of nudes or semi-nudes as part of our Tutorials and annual events programme. Teaching covers the following in relation to the sharing of nudes and semi-nudes:

- What it is
- How it is most likely to be encountered
- The consequences of requesting, forwarding or providing such images, including when it is and is not abusive and when it may be deemed as online sexual harassment
- Issues of legality

- The risk of damage to people's feelings and reputation

Children also learn the strategies and skills needed to manage

- Specific requests or pressure to provide (or forward) such images
- The receipt of such images

This policy on sharing of nudes and semi-nudes is also shared with children, as appropriate, so they are aware of the processes the college will follow in the event of an incident.

Teaching follows best practice in delivering safe and effective education, including:

- Putting safeguarding first
- Approaching from the perspective of the child
- Promoting dialogue and understanding
- Empowering and enabling children and young people
- Never frightening or scare-mongering
- Challenging victim-blaming attitudes

7.10 Reporting systems for our children:

Where there is a safeguarding concern, we will take the child's wishes and feelings into account when determining what action to take and what services to provide.

We recognise the importance of ensuring children feel safe and comfortable to come forward and report any concerns and/or allegations.

To achieve this, we will:

- Put systems in place for children to confidently report abuse
- Ensure our reporting systems are well promoted, easily understood and easily accessible for children
- Make it clear to children that their concerns will be taken seriously, and that they can safely express their views and give feedback
- Children are aware of how to report concerns through regular tutorials and relationship, sex education. Safeguarding posters and easy read guides on how to report concerns are available to all children in a range of formats.

8. Online safety and the use of mobile technology:

We recognise the importance of safeguarding children from potentially harmful and inappropriate online material, and we understand that technology is a significant component in many safeguarding and wellbeing issues.

To address this, our college aims to:

- Have robust processes (including filtering and monitoring systems) in place to ensure the online safety of children, staff, volunteers and governors
- Protect and educate the whole college community in its safe and responsible use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- Set clear guidelines for the use of mobile phones for the whole college community
- Establish clear mechanisms to identify, intervene in and escalate any incidents or concerns, where appropriate

The 4 key categories of risk:

Our approach to online safety is based on addressing the following categories of risk:

- **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism
- **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g., consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

To meet our aims and address the risks above we will:

Educate children about online safety as part of our curriculum. For example:

- The safe use of social media, the internet and technology
- Keeping personal information private
- How to recognise unacceptable behaviour online
- How to report any incidents of cyber-bullying, ensuring children are encouraged to do so, including where they are a witness rather than a victim

We will train staff, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation, and the expectations, roles and responsibilities around filtering and monitoring. All staff members will receive refresher training at least once each academic year

Educate parents/carers about online safety via our website, communications sent directly to them. We will also share clear procedures with them, so they know how to raise concerns about online safety

Make sure staff are aware of any restrictions placed on them with regards to the use of their mobile phone and cameras, for example that:

- Staff are allowed to bring their personal phones to college for their own use, but will limit such use to non-contact time when children are not present
- Staff will not take pictures or recordings of children on their personal phones or cameras

Make all children, parents/carers, staff, volunteers and governors aware that they are expected to sign an agreement regarding the acceptable use of the internet in college, use of the college's ICT systems and use of their mobile and smart technology

Explain the sanctions we will implement if a child is in breach of our policies on the acceptable use of the internet and mobile phones

Make sure all staff, children and parents/carers are aware that staff have the power to search children's phones, as set out in the DfE's guidance on searching, screening and confiscation

Put in place robust filtering and monitoring systems to limit children's exposure to the 4 key categories of risk (described above) from the college's IT systems.

Carry out an annual review of our approach to online safety, supported by an annual risk assessment that considers and reflects the risks faced by our college community

Provide regular safeguarding and children protection updates including online safety to all staff at least annually, in order to continue to provide them with the relevant skills and knowledge to safeguard effectively.

Review the child protection and safeguarding policy, including online safety, annually and ensure the procedures and implementation are updated and reviewed regularly.

This section summarises our approach to online safety and mobile phone use. For full details about our college's policies in these areas, please refer to our online safety policy and mobile phone policies.

8.1 Artificial intelligence (AI)

Generative artificial intelligence (AI) tools are now widespread and easy to access. Staff, children and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Gemini.

Thornbeck College recognises that AI has many uses, including enhancing teaching and learning, and in helping to protect and safeguard children. However, AI may also have the potential to facilitate abuse (e.g. bullying and grooming) and/or expose children to harmful content. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real.

Thornbeck College will treat any use of AI to access harmful content or bully children in line with this policy and our anti-bullying policy.

Staff should be aware of the risks of using AI tools whilst they are still being developed and should carry out risk assessments for any new AI tool being used by the college. Our college's requirements for filtering and monitoring also apply to the use of AI, in line with Keeping Children Safe in Education.

9. Notifying parents or carers:

Where appropriate, we will discuss any concerns about a child with the child's parents. The DSL will normally do this in the event of a suspicion or disclosure.

Other staff will only talk to parents about any such concerns following consultation with the DSL.

If we believe that notifying the parents would increase the risk to the child, we will discuss this with the local authority children's social care team before doing so.

In the case of allegations of abuse made against other children, we will normally notify the parents of all the children involved. We will think carefully about what information we provide about the other child involved, and when. We will work with the police and/or local authority children's social care to make sure our approach to information sharing is consistent.

The DSL will, along with any relevant agencies (this will be decided on a case-by-case basis):

- Meet with the victim's parents or carers, with the victim, to discuss what's being put in place to safeguard them, and understand their wishes in terms of what support they may need and how the report will be progressed
- Meet with the alleged perpetrator's parents or carers to discuss support for them, and what's being put in place that will impact them, e.g., moving them out of classes with the victim, and the reason(s) behind any decision(s)

10. CHILDREN WITH SPECIAL EDUCATIONAL NEEDS, DISABILITIES OR HEALTH ISSUES

We recognise that children with special educational needs (SEN), disabilities or certain health conditions can face additional safeguarding challenges. Additional barriers can exist when recognising abuse and neglect in this group, including:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration
- Children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children
- The potential for children with SEN, disabilities or certain health conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs
- Communication barriers and difficulties in managing or reporting these challenges
- Cognitive understanding – being unable to understand the difference between fact and fiction in online content and then repeating the content/behaviours in colleges or colleges or the consequences of doing so

We offer extra pastoral support for children with SEN and disabilities. This includes:

- Weekly group and/or 1:1 tutorial

- Whole college events
- Identified circle of support to ensure children have safe people to talk to
- NSPCC themes

Any abuse involving children with SEND will require close liaison with the DSL (or deputy).

11. CHILDREN WITH A SOCIAL WORKER

Children may need a social worker due to safeguarding or welfare needs. We recognise that a child's experiences of adversity and trauma can leave them vulnerable to further harm as well as potentially creating barriers to attendance, learning, behaviour and mental health.

The DSL and all members of staff will work with and support social workers to help protect vulnerable children.

Where we are aware that a child has a social worker, the DSL will always consider this fact to ensure any decisions are made in the best interests of the child's safety, welfare and educational outcomes. For example, it will inform decisions about:

- Responding to unauthorised absence or missing education where there are known safeguarding risks
- The provision of pastoral and/or academic support.

12. LOOKED AFTER AND PREVIOUSLY LOOKED AFTER CHILDREN

We will ensure that staff have the skills, knowledge and understanding to keep looked-after children and previously looked-after children safe. In particular, we will ensure that:

- Appropriate staff have relevant information about children's looked after legal status, contact arrangements with birth parents or those with parental responsibility, and care arrangements
- The DSL has details of children's social workers and relevant Virtual School Heads

Fay Strong takes the lead on promoting the educational achievement of looked-after and previously looked-after children, in line with statutory guidance. In a specialist post-16 setting, the college will ensure that an appropriately trained member of staff has clear responsibility for this work.

As part of their role, they will:

- Work closely with the DSL to ensure that any safeguarding concerns regarding looked-after and previously looked-after children are quickly and effectively responded to
- Work with Virtual School Heads to promote the educational achievement of looked-after and previously looked-after children.

13. LEARNERS UNDER 18 WHO ARE LESBIAN, GAY, BISEXUAL OR GENDER QUESTIONING

We recognise that children who are (or who are perceived to be) lesbian, gay, bisexual or gender questioning (LGBTQ+) can be targeted by other children. See our anti-bullying policy for more detail on how we prevent bullying based on gender or sexuality.

We also recognise that LGBTQ+ children are more likely to experience poor mental health. Any concerns should be reported to the DSL.

Where a learner under 18 is questioning their gender or is perceived to be gender questioning, staff will provide appropriate pastoral support, listen carefully to the learner and consider their individual circumstances and safeguarding needs. The college will follow current Department for Education statutory guidance and any applicable local safeguarding procedures. Staff will not make assumptions about a learner's identity or needs and will refer safeguarding concerns to the DSL.

Any safeguarding concerns relating to a learner who is questioning their gender will be considered on an individual basis, including the learner's age, developmental needs, SEND, mental health and wellbeing, family circumstances and any risk of abuse, exploitation, bullying or discrimination. The college will act in accordance with current statutory guidance and the best interests and welfare of the learner.

We will also consider the broad range of their individual needs, in partnership with their parents/carers (other than in rare circumstances where involving parents/carers would constitute a significant risk of harm to the child). We will also include any clinical advice that is available and consider how to address wider vulnerabilities such as the risk of bullying.

Risks can be compounded where children lack trusted adults with whom they can be open. We therefore aim to reduce the additional barriers faced and create a culture where children can speak out or share their concerns with members of staff.

14. COMPLAINTS AND CONCERNS ABOUT COLLEGE SAFEGUARDING POLICIES

14.1 Complaints against staff:

Complaints against staff that are likely to require a child protection investigation will be handled in accordance with our procedures for dealing with allegations of abuse made against staff (see appendix 3).

14.2 Other complaints:

Thornbeck College is committed to safeguarding and promoting the welfare of children, young people and vulnerable adults and expects all staff to share the same values. The college has a Complaints and Appeals Policy to handle other complaints for example those related to children or premises.

14.3 Whistle-blowing

Thornbeck College is committed to safeguarding and promoting the welfare of children, young people and vulnerable adults and expects all staff to share the same values.

Whistle-blowing is a process that enables employed staff to raise serious concerns in the workplace and to have these concerns properly addressed. There may be allegations or concerns of abuse which implicate a member or members of staff. A member of staff may have concerns about the conduct or

behaviour of a colleague. Despite working closely together or even socialising outside of work, the Duty of Care necessitates the matter being raised, in accordance with safeguarding procedures.

Front-line staff are often the first to see or suspect misconduct, but are often worried about raising concerns. They may worry that they are being disloyal to their colleagues or are worried about the consequences of coming forward. It is recognised that whistle-blowing is often seen in a negative light and that this negativity has been perpetuated for many years. Consequently it is difficult for staff to see the positives but this needs to be encouraged. A good starting point is to ensure open, honest and effective communication amongst staff teams and within the service. Where this is the case, staff should begin to feel more confident and positive about coming forward with ideas, thoughts, suggestions and concerns. All managers must ensure that they listen to their staff and support them in this. The policy which is available to all staff is designed to support staff to come forward with their concerns, and relay confidence that they will be supported throughout the process.

Thornbeck College has a whistle blowing policy in place that highlight the procedures in place.

15. RECORD KEEPING

We will hold records in line with our records retention schedule.

All safeguarding concerns, discussions, decisions made and the rationale for those decisions, must be recorded in writing. This should include instances where referrals were or were not made to another agency such as local authority children's social care or the Prevent programme, etc. If you are in any doubt about whether to record something, discuss it with the DSL.

Records will include.

- A clear and comprehensive summary of the concern
- Details of how the concern was followed up and resolved
- A note of any actions taken, decisions reached and the outcome

Concerns and referrals will be kept in a separate child protection electronic file for each child.

Non-confidential records will be easily accessible and available. Confidential information and records will be held securely and only available to those who have a right or professional need to see them.

Safeguarding records relating to individual children will be retained for a reasonable period of time after they have left the college.

If a child for whom the college has, or has had, safeguarding concerns moves to another college, the DSL will ensure that their child protection file is forwarded promptly and securely, and separately from the main child file.

To allow the new college to have support in place when the child arrives, this should be within:

- five days for an in-year transfer, or within,
- the first five days of the start of a new term.

In addition, if the concerns are significant or complex, and/or social services are involved, the DSL will speak to the DSL of the receiving college and provide information to enable them to have time to make any necessary preparations to ensure the safety of the child. Thornbeck College holds records in line with our Retention Schedule.

Thornbeck College shares information with other agencies when this is appropriate, in line with Durham Safeguarding Children Partnership procedures.

Both paper-based and electronic records are stored securely in line with GDPR procedures.

In addition:

- Appendix 2 sets out our policy on record-keeping specifically with respect to recruitment and pre-employment checks
- Appendix 3 sets out our policy on record-keeping with respect to allegations of abuse made against staff.

16. TRAINING

16.1 All Staff

All staff members will undertake safeguarding and child protection training at induction, including on whistle-blowing procedures and on online safety, to ensure they understand the college's safeguarding systems and their responsibilities, and can identify signs of possible abuse or neglect.

This training will be regularly updated and will:

- Be integrated, aligned and considered as part of the whole college safeguarding approach and wider staff training and curriculum planning.
- Be in line with advice from the three safeguarding partners.
- Include online safety, including an understanding of the expectations, roles and responsibilities for staff around filtering and monitoring.

All staff will have training on the government's anti-radicalisation strategy, Prevent, to enable them to identify children at risk of being drawn into terrorism and to challenge extremist ideas.

Staff will also receive regular safeguarding and child protection updates, including on online safety, (for example, through emails, e-bulletins and staff meetings) as required, but at least annually.

Volunteers will receive appropriate training, if applicable.

16.2 The DSL and deputies:

The DSL and deputies will undertake child protection and safeguarding training at least every 2 years.

In addition, they will update their knowledge and skills at regular intervals and at least annually (for example, through e-bulletins, meeting other DSLs, or taking time to read and digest safeguarding developments).

They, or any other designated Prevent lead, will also undertake Prevent awareness training, including on extremist and terrorist ideologies.

16.3 Governance and Trustees

All trustees receive training about safeguarding and child protection (including online safety). This is to make sure that they:

- Have the knowledge and information needed to perform their functions and understand their responsibilities, such as providing strategic challenge
- Can be assured that safeguarding policies and procedures are effective and support the college to deliver a robust whole-college approach to safeguarding

As the Director of Education may be required to act as the 'case manager' in the event that an allegation of abuse is made against the Principal; they receive training in managing allegations for this purpose.

16.4 Recruitment – interview panels:

At least one person conducting any interview for a post at the college will have undertaken safer recruitment training. This will cover, as a minimum, the contents of the Department for Education's statutory guidance, Keeping Children Safe in Education, and will be in line with local safeguarding procedures.

See appendix 2 of this policy for more information about our safer recruitment procedures

16.5 Staff who have contact with children and families

Staff who have contact with children and families:

All staff who have contact with children and families will have supervisions which will provide them with support, coaching and training, promote the interests of children and allow for confidential discussions of sensitive issues.

17. MONITORING ARRANGEMENTS

This policy will be reviewed annually by the Education Leadership Team. At every review, it will be approved by the full governance board.

18. LINKS WITH OTHER POLICIES

This policy links to the following policies and procedures:

- STEP Policy
- Staff code of conduct
- Complaints and Appeals
- Health and safety
- Attendance Policy
- E-Safety (includes acceptable usage
- Online Safety Policy
- Mobile Phone Policy
- Equality and Diversity
- Relationship and Sex Education (RSE)
- First aid
- Curriculum
- Whistle blowing
- Anti-bullying
- Data Protection (GDPR)
- NEAS employee privacy notice
- Designated Teacher Policy
- Unexplained Injuries Policy
- Recruitment Policy
- Medication Policy
- Continual and Professional Development Policy
- Photographs and Digital Imaging Policy
- Transport Policy
- Annual Safeguarding Report

APPENDIX 1: TYPES OF ABUSE

Abuse, including neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap.

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Emotional abuse may involve:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction
- Seeing or hearing the ill-treatment of another
- Serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children

Sexual abuse involves forcing, causing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve:

- Physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing
- Non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet)

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect a child from physical and emotional harm or danger
- Ensure adequate supervision (including the use of inadequate care-givers)
- Ensure access to appropriate medical care or treatment
- It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

APPENDIX 2: SAFER RECRUITMENT AND DBS CHECKS – POLICY AND PROCEDURES

Recruitment and Selection Process:

The recruitment steps outlined below are based on part three of Keeping Children Safe in Education Part 3.

To make sure we recruit suitable people, we will ensure that those involved in the recruitment and employment of staff to work with children have received appropriate safer recruitment training.

We have put the following steps in place during our recruitment and selection process to ensure we are committed to safeguarding and promoting the welfare of children

Advertising:

When advertising roles, we will make clear:

- Our college's commitment to safeguarding and promoting the welfare of children
- That safeguarding checks will be undertaken
- The safeguarding requirements and responsibilities of the role, such as the extent to which the role will involve contact with children
- Whether or not the role is exempt from the Rehabilitation of Offenders Act 1974 and the amendments to the Exceptions Order 1975, 2013 and 2020. If the role is exempt, certain spent convictions and cautions are 'protected', so they do not need to be disclosed, and if they are disclosed, we cannot take them into account

Application forms:

Our application forms will:

- Include a statement saying that it is an offence to apply for the role if an applicant is barred from engaging in regulated activity relevant to children (where the role involves this type of regulated activity)
- Include a copy of, or link to, our child protection and safeguarding policy and our policy on the employment of ex-offenders

Shortlisting:

Our shortlisting process will involve at least 2 people and will:

- Consider any inconsistencies and look for gaps in employment and reasons given for them
- Explore all potential concerns

Once we have shortlisted candidates, we will ask shortlisted candidates to:

- Complete a self-declaration of their criminal record or any information that would make them unsuitable to work with children, so that they have the opportunity to share relevant information and discuss it at interview stage. The information we may ask for includes:
 - If they have a criminal history
 - Whether they are included on the barred list
 - Whether they are prohibited from teaching
 - Information about any criminal offences committed in any country in line with the law as applicable in England and Wales
 - Any relevant overseas information
 - If they are known to the policy and children's local authority social care and
 - If they have been disqualified from providing childcare
 - Signed declaration confirming the information they have provided is true

We will also consider carrying out an online search on shortlisted candidates to help identify any incidents or issues that are publicly available online. Shortlisted candidates will be informed that we may carry out these checks as part of our due diligence process.

Seeking references and checking employment history:

We will obtain references before interview. Any concerns raised will be explored further with referees and taken up with the candidate at interview.

When seeking references, we will:

- Not accept open references
- Liaise directly with referees and verify any information contained within references with the referees
- Ensure any references are from the candidate's current employer and completed by a senior person. Where the referee is college based, we will ask for the reference to be confirmed by the Principal/principal as accurate in respect to disciplinary investigations
- Obtain verification of the candidate's most recent relevant period of employment if they are not currently employed
- Secure a reference from the relevant employer from the last time the candidate worked with children if they are not currently working with children
- Compare the information on the application form with that in the reference and take up any inconsistencies with the candidate
- Resolve any concerns before any appointment is confirmed

Interview and selection:

When interviewing candidates, we will:

- Probe any gaps in employment, or where the candidate has changed employment or location frequently, and ask candidates to explain this

- Explore any potential areas of concern to determine the candidate's suitability to work with children
- Record all information considered and decisions made

Pre-appointment vetting checks:

We will record all information on the checks carried out in the college's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

New staff:

All offers of appointment will be conditional until satisfactory completion of the necessary pre-employment checks. When appointing new staff, we will:

- Verify their identity
- Obtain (via the applicant) an enhanced DBS certificate, including barred list information for those who will be engaging in regulated activity (see definition below). We will obtain the certificate before, or as soon as practicable after, appointment, including when using the DBS update service. We will not keep a copy of the certificate for longer than 6 months, but when the copy is destroyed, we may still keep a record of the fact that vetting took place, the result of the check and recruitment decision taken
- Obtain a separate barred list check if they will start work in regulated activity before the DBS certificate is available
- Verify their mental and physical fitness to carry out their work responsibilities
- Verify their right to work in the UK. We will keep a copy of this verification for the duration of the member of staff's employment and for 2 years afterwards
- Verify their professional qualifications, as appropriate
- Ensure they are not subject to a prohibition order if they are employed to be a teacher
- Carry out further additional checks, as appropriate, on candidates who have lived or worked outside of the UK. Where available, these will include:
 - For all staff, including teaching positions: criminal records checks for overseas applicants
 - For teaching positions: obtaining a letter from the professional regulating authority in the country where the applicant has worked confirming that they have not imposed any sanction or restrictions on that person and/or are aware of any reason why that person may be unsuitable to teach.
- Check that candidates taking up a management position* are not subject to a prohibition from management (section 128) direction made by the secretary of state
- Management positions are most likely to include, but are not limited to, principals and vice principals.
- We will ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the 2018 Childcare Disqualification Regulations and Childcare Act 2006. Where we take a decision that an individual falls outside of the scope of these regulations and we do not carry out such checks, we will retain a record of our assessment on the individual's personnel file. This will include our evaluation of any risks and control measures put in place, and any advice sought.

Regulated activity means a person who will be:

- Responsible, on a regular basis in a college or college, for teaching, training, instructing, caring for or supervising children; or
- Carrying out paid, or unsupervised unpaid, work regularly in a college or college where that work provides an opportunity for contact with children; or
- Engaging in intimate or personal care or overnight activity, even if this happens only once and regardless of whether they are supervised or not

Existing staff:

In certain circumstances we will carry out all the relevant checks on existing staff as if the individual was a new member of staff. These circumstances are when:

- There are concerns about an existing member of staff's suitability to work with children; or
- An individual moves from a post that is not regulated activity to one that is; or
- There has been a break in service of 12 weeks or more

We will refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult where:

- We believe the individual has engaged in relevant conduct; or
- We believe the individual has received a caution or conviction for a relevant (automatic barring either with or without the right to make representations) offence, under the Safeguarding Vulnerable Groups Act 2006 (Prescribed Criteria and Miscellaneous Provisions) Regulations 2009; or
- We believe the 'harm test' is satisfied in respect of the individual (i.e., they may harm a child or vulnerable adult or put them at risk of harm); and
- The individual has been removed from working in regulated activity (paid or unpaid) or would have been removed if they had not left

Agency and third-party staff:

- We will obtain written notification from any agency or third-party organisation that it has carried out the necessary safer recruitment checks that we would otherwise perform. We will also check that the person presenting themselves for work is the same person on whom the checks have been made.

Contractors:

We will ensure that any contractor, or any employee of the contractor, who is to work at the college has had the appropriate level of DBS check (this includes contractors who are provided through a PFI or similar contract). This will be:

- An enhanced DBS check with barred list information for contractors engaging in regulated activity

- An enhanced DBS check, not including barred list information, for all other contractors who are not in regulated activity but whose work provides them with an opportunity for regular contact with children

We will obtain the DBS check for self-employed contractors.

We will not keep copies of such checks for longer than 6 months.

Contractors who have not had any checks will not be allowed to work unsupervised or engage in regulated activity under any circumstances.

We will check the identity of all contractors and their staff on arrival at the college.

For self-employed contractors such as music teachers or sports coaches, we will ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the 2018 Childcare Disqualification Regulations and Childcare Act 2006. Where we decide that an individual falls outside of the scope of these regulations and we do not carry out such checks, we will retain a record of our assessment. This will include our evaluation of any risks and control measures put in place, and any advice sought.

Volunteers:

We will:

- Never leave an unchecked volunteer unsupervised or allow them to work in regulated activity
- Obtain an enhanced DBS check with barred list information for all volunteers who are new to working in regulated activity
- Carry out a risk assessment when deciding whether to seek an enhanced DBS check without barred list information for any volunteers not engaging in regulated activity. We will retain a record of this risk assessment
- Ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the 2018 Childcare Disqualification Regulations and Childcare Act 2006. Where we decide that an individual falls outside of the scope of these regulations and we do not carry out such checks, we will retain a record of our assessment. This will include our evaluation of any risks and control measures put in place, and any advice sought

Governance:

- All governance will have an enhanced DBS check without barred list information.
- They will have an enhanced DBS check with barred list information if working in regulated activity.
- The chair of the board will have their DBS check countersigned by the secretary of state.

All trustees will also have the following checks:

- Identity
- Right to work in the UK
- Other checks deemed necessary if they have lived or worked outside the UK

Staff working in alternative provision settings:

Where we place a child with an alternative provision provider, we obtain written confirmation from the provider that they have carried out the appropriate safeguarding checks on individuals working there that we would otherwise perform.

Adults who supervise children on work experience:

When organising work experience, we will ensure that policies and procedures are in place to protect children from harm.

We will also consider whether it is necessary for barred list checks to be carried out on the individuals who supervise a child under 16 on work experience. This will depend on the specific circumstances of the work experience, including the nature of the supervision, the frequency of the activity being supervised, and whether the work is regulated activity.

APPENDIX 3 – ALLEGATIONS OF ABUSE MADE AGAINST STAFF

All allegations will be investigated thoroughly and as a matter of urgency. They will be dealt with quickly, fairly and consistently.

We will always ensure that the procedures outlined in the local authority arrangements for managing allegations and Part 4 of 'Keeping Children Safe in Education', DfE are adhered to and where appropriate, we will seek advice from the LADO.

Allegations that might indicate a person would pose a risk of harm if they continue to work in their present position, or in any capacity with children in college would apply when staff (including volunteers and supply staff) have (or alleged to have):

- behaved in a way that has harmed a child, or may have harmed a child and/or;
- possibly committed a criminal offence against or related to a child and/or;
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

The last bullet point includes behaviour that may have happened outside of college, that might make an individual unsuitable to work with children, this is known as transferable risk. Where appropriate, an assessment of transferable risk to children with whom the person works will be undertaken. If in doubt we will seek advice from the LADO.

When an allegation is made against an adult that meets the above criteria it should be reported immediately to the Principal who is the 'case manager'. This includes allegations made against agency and supply staff, volunteers and contractors.

Staff must:

1. Make a verbal report as soon as possible.
2. Complete the Staff Allegation/Concern Reporting Form (Appendix 3) immediately after the verbal report.
3. Submit the completed form to the Principal (or alternative contact, as outlined below).

The Staff Allegation/Concern Reporting Form is a mandatory record that will:

- Form part of the investigation file.
- Remain attached to all related management and investigation documents.
- Be stored securely in accordance with data protection and safeguarding requirements.

If the allegation or concern relates to the Principal, it must be reported directly to the Director of Education alongside the submission of the Staff Allegation/Concern Reporting Form.

In the event that neither the Principal nor the Director of Education is contactable on that day, the information and form must be passed to and dealt with by:

- The acting Principal; or
- The Deputy Designated Safeguarding Lead; or
- The Chief Executive Officer; or

- The LADO.

If an allegation is made against a governor, the Principal will follow local authority arrangements for managing allegations, liaising with the LADO.

In the event of an allegation that meets the criteria above, the Principal (or Director of Education/Chief Executive Officer where the Principal is the subject of the allegation) – the ‘case manager’ – will take the following steps:

- The case manager will conduct basic enquiries in line with local procedures and KCSIE to establish the facts to help determine whether there is any foundation to the allegation, being careful not to jeopardise any future police investigation.
- The case manager will immediately discuss with the LADO, the nature, content and context of the allegation and agree on a course of action. Where the case manager deems there to be an immediate risk to children or a criminal offence has been committed, the police will be contacted immediately. All discussions, agreed actions and communications will be recorded in writing using the Staff Allegation/Concern Reporting Form. The LADO should be informed within one day of any allegations made to the case manager and any actions taken.
- If there is cause to suspect a child is suffering, or is likely to suffer significant harm, a strategy discussion involving the police and/or children’s social care will be convened. Cases of suspected abuse will be referred to children’s social care.
- Where the police are involved, the case manager will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the college’s disciplinary process, should this be required at a later point.
- The case manager will ensure that the individual who is subject to the allegation is informed as soon as possible explaining the likely course of action guided by the LADO, and the police where necessary. The case manager will appoint a named representative to keep the person informed about the progress of the case and consider any appropriate support. The individual is also advised they can contact their trade union representation or society HR department.
- The case manager will ensure that parents of the child or children involved are formally told about the allegation as soon as possible and kept informed of the progress of the case, only in relation to their child. They will be made aware of the requirement to maintain confidentiality and unwanted publicity about any allegations made against teachers in colleges whilst investigations are in progress. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice.
- The case manager will monitor the progress of the case to ensure that it is dealt with as quickly as possible in a thorough and fair process.
- The case manager will carefully consider whether the circumstances warrant suspension from contact with children at the college, or until the allegation is resolved. It will be considered only in cases where there is cause to suspect a child or other children at the college is/are at risk of harm, or the case is so serious it might be grounds for dismissal. The case manager will maintain contact with the CEO and seek views from HR and the LADO, as well as the police and children’s social care where they have been involved. Where an

individual is suspended they will be provided with a named contact in college, their contact details and written confirmation of the suspension within 1 working day.

- If the initial discussion leads to no further action, the case manager and the LADO will record the decision and justification for it and agree on what information should be put in writing to the individual concerned as well as what action should follow both in respect of the individual and those who made the initial allegation
- If it is decided that further action is needed, take steps as agreed with the designated officer to initiate the appropriate action in college and/or liaise with the police and/or children's social care services as appropriate
- The case manager will discuss with the LADO whether a referral to the Disclosure and Barring Service (DBS) and/or the Teaching Regulation Agency (TRA) should be made where an allegation is substantiated and the person is dismissed or the college ceases to use their services, or resigns or otherwise ceases to provide their services.
- The college has a legal obligation to make a referral to the DBS for consideration of whether inclusion on the barred lists is required; where it considers an individual has engaged in conduct that harmed (or is likely to harm) a child; or if a person poses a risk to a child.
- In the case of a member of teaching staff, the case manager must consider making a referral to the Teaching Regulation Agency (TRA) to consider prohibiting the individual from teaching.

The completed Staff Allegation/Concern Reporting Form, along with any other evidence related to the allegation or concern, will be used to support the initial assessment and inform any referral to the LADO, police, or other relevant external agencies.

All decisions, actions, and outcomes will be documented in the Leadership and Management section of the form. This record will be stored securely and will be retained within the staff member's personnel file maintained by HR. Access to this information will be strictly limited in line with GDPR procedures and safeguarding.

If the concern arises from a disclosure or allegation made by a child, all related records — including the Staff Allegation/Concern Reporting Form, actions taken, correspondence, and follow-up — will be stored securely on CPOMS, in line with safeguarding and confidentiality procedures.

If we receive an allegation of an incident happening while an individual or organisation was using the college premises to run activities for children, we will follow our safeguarding policies and procedures and inform the LADO.

Suspension of the accused until the case is resolved:

Suspension of the accused will not be the default position and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that it might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

- Redeployment within the college so that the individual does not have direct contact with the child or children concerned
- Providing an assistant to be present when the individual has contact with children
- Redeploying the individual to alternative work in the college so that they do not have unsupervised access to children
- Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents have been consulted
- Temporarily redeploying the individual to another role in a different location, for example to an alternative college or other work for the Society.

If in doubt, the case manager will seek views from the college's personnel advisor and the designated officer at the local authority, as well as the police and children's social care where they have been involved

Definitions for outcomes of allegation investigations:

- Substantiated: there is sufficient evidence to prove the allegation
- Malicious: there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive or cause harm to the subject of the allegation
- False: there is sufficient evidence to disprove the allegation
- Unsubstantiated: there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)
- Unfounded: to reflect cases where there is no evidence or proper basis which supports the allegation being made

Additional considerations for supply teachers and all contracted staff:

If there are concerns or an allegation is made against someone not directly employed by the college, such as supply teacher or contracted staff member provided by an agency, we will take the actions below in addition to our standard procedures.

- We will not make a decision to cease using an individual's services solely on the basis of a safeguarding concern without first establishing the relevant facts and consulting with the LADO to determine an appropriate and fair outcome.
- The college leadership team will work in consultation with the agency to determine whether it is appropriate to suspend the individual or redeploy them to another role within the college while the investigation is ongoing.
- The college will take the lead in gathering all necessary information, while ensuring the agency is fully involved in the process. Relevant details will be provided to the LADO as required.
- The college will address matters relating to information sharing to ensure that any previous concerns or allegations known to the agency are considered. This may be done during the allegations management meeting or through direct liaison with the agency, as appropriate.

When using an agency, we will ensure the agency is fully informed of our procedures for managing allegations and kept updated on any relevant policy changes. Where appropriate, the agency's HR manager (or equivalent representative) will be invited to attend meetings related to the case.

Timescales:

We will deal with all allegations as quickly and effectively as possible and will endeavor to comply with the following timescales, where reasonably practicable:

- Any cases where it is clear immediately that the allegation is unsubstantiated or malicious will be resolved within 1 week
- If the nature of an allegation does not require formal disciplinary action, we will institute appropriate action within 3 working days
- If a disciplinary hearing is required and can be held without further investigation, we will hold this within 15 working days

However, these are objectives only and where they are not met, we will endeavour to take the right action as soon as possible thereafter

Specific actions:

Action following a criminal investigation or prosecution:

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or children's social care services.

Conclusion of a case where the allegation is substantiated:

If the allegation is substantiated and the individual is dismissed or the college ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the case manager and the college's personnel adviser will discuss with the designated officer whether to make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the college will consider whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

Employer references will include substantiated allegations, provided that the information is factual and does not include opinions.

On conclusion of a case in which the allegation is substantiated, the case manager and the LADO will review the case to determine whether there are any improvements to be made to the college's procedures or practices to help prevent similar events in the future.

Individuals returning to work after suspension:

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this. The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the college.

Unsubstantiated, unfounded, false or malicious reports:

If a report is determined to be unsubstantiated, unfounded, false or malicious the DSL will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate.

If an allegation is shown to be deliberately invented, or malicious, the college will consider whether any disciplinary action is appropriate or whether the police should be asked to consider action against an adult.

Details of allegations following an investigation that are found to have been malicious or false will be removed from personnel records, unless the individual gives their consent for retention of the information. For all other allegations a written record of details of the investigation and the outcome will be retained in the individual's personnel file in line with KCSIE and a copy provided to the individual.

Allegations proven to be unsubstantiated, unfounded, false or malicious will not be included in employer references.

Confidentiality and information sharing:

The college will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the local authority's designated officer, police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

Record-keeping:

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above. These records will be stored securely and retained within the staff member's personnel file maintained by HR. Access to this information will be strictly limited in line with GDPR procedures and safeguarding requirements.

If the concern arises from a disclosure or allegation made by a child, all related records — including the Staff Allegation/Concern Reporting Form, actions taken, correspondence, and follow-up — will be stored securely on CPOMS, in line with safeguarding and confidentiality procedures.

The records of any allegations that, following an investigation is found to be malicious or false will be deleted from the individuals personnel file (unless the individual consents for the records to be retained on the file).

For all other allegations (which are not found to be malicious or false), the following information will be kept on the file for individual concerned:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, and decisions reached and the outcome
- A declaration on whether the information will be referred to in any future reference

In these cases, the case manager will provide a copy to the individual, in agreement with children's social care or the police as appropriate

We will retain all records at least until the accused individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

Learning lessons:

After any cases where the allegations are substantiated, the case manager will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the college's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual.

For all other cases, the case manager will consider the facts and determine whether any improvements can be made.

Non-recent allegations:

Abuse can be reported, no matter how long ago it happened. Non-recent allegations of abuse should be reported to the LADO who will liaise with other agencies. Allegations against a teacher who is no longer teaching should be referred to the police.

Low-level concerns:

The section is based on 'Section 2: Concerns that do not meet the harm threshold' in part 4 of Keeping Children Safe in Education. Please refer to our 'low level concerns policy' for full details

All concerns about all adults working in or on behalf of the college (including supply teachers, volunteers and contractors) will be dealt with promptly and appropriately.

The term 'low-level' concern does not mean that it is insignificant, it means that the behaviour towards a child does not meet the criteria indicated in the allegations section above.

A low-level concern is any concern, no matter how small, and even if no more than causing a sense of unease or a nagging doubt.

An adult working in or on behalf of the college may have acted in a way that does not meet the expectation in the staff code of conduct, including conduct outside of college and does not meet the allegations criteria or is not considered serious enough to refer to the LADO.

Such behaviour can exist on a wide spectrum; examples could include, but are not limited to:

- Being overfriendly with children
- Having favourites
- Taking photographs of children on their mobile phone
- Engaging with a child on a one-to-one basis in a secluded area or behind a closed door
- Humiliating children
- Using inappropriate sexualised, intimidating or offensive language towards or in front of a child

Concerns may arise through, for example:

- Suspicion
- Complaint
- Safeguarding concern or allegation from another member of staff
- Disclosure made by a child, parent or other adult within or outside the college
- Pre-employment vetting checks

Low-level concerns about a member of staff should be reported immediately to the DSL (Principal). Where the concern is about the Principal, it should be reported to the Director of Education and recorded using the Staff Allegation/Concern Reporting Form (Appendix 3).

Low-level concerns about an agency staff or contractor should be reported as above. The Principal will notify the employer so that any patterns of inappropriate behaviour can be identified.

All low-level concerns will be recorded by the DSL/Principal using the staff allegation/concern reporting form and stored securely and confidentially. All decisions, actions, and outcomes will be documented in the Leadership and Management section of the form. This record will be stored securely and will be retained within the staff member's personnel file maintained by HR. Access to this information will be strictly limited in line with GDPR procedures and safeguarding requirements.

These records will be reviewed so that any patterns of inappropriate behaviour can be identified and dealt with.

APPENDIX 3 – ALLEGATIONS OF ABUSE MADE AGAINST STAFF

All allegations will be investigated thoroughly and as a matter of urgency. They will be dealt with quickly, fairly and consistently.

We will always ensure that the procedures outlined in the local authority arrangements for managing allegations and Part 4 of 'Keeping Children Safe in Education', DfE are adhered to and where appropriate, we will seek advice from the LADO.

Allegations that might indicate a person would pose a risk of harm if they continue to work in their present position, or in any capacity with children in college would apply when staff (including volunteers and supply staff) have (or alleged to have):

- behaved in a way that has harmed a child, or may have harmed a child and/or;
- possibly committed a criminal offence against or related to a child and/or;
- behaved towards a child in a way that indicates he or she may pose a risk of harm to children and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children

The last bullet point includes behaviour that may have happened outside of college, that might make an individual unsuitable to work with children, this is known as transferable risk. Where appropriate, an assessment of transferable risk to children with whom the person works will be undertaken. If in doubt we will seek advice from the LADO.

When an allegation is made against an adult that meets the above criteria it should be reported immediately to the Principal who is the 'case manager'. This includes allegations made against agency and supply staff, volunteers and contractors.

Staff must:

1. Make a verbal report as soon as possible.
2. Complete the Staff Allegation/Concern Reporting Form (Appendix 3) immediately after the verbal report.
3. Submit the completed form to the Principal (or alternative contact, as outlined below).

The Staff Allegation/Concern Reporting Form is a mandatory record that will:

- Form part of the investigation file.
- Remain attached to all related management and investigation documents.
- Be stored securely in accordance with data protection and safeguarding requirements.

If the allegation or concern relates to the Principal, it must be reported directly to the Director of Education alongside the submission of the Staff Allegation/Concern Reporting Form.

In the event that neither the Principal nor the Director of Education is contactable on that day, the information and form must be passed to and dealt with by:

- The acting Principal; or
- The Deputy Designated Safeguarding Lead; or
- The Chief Executive Officer; or
- The LADO.

If an allegation is made against a trustee, the Principal, in conjunction with the Director of Education and CEO will follow local authority arrangements for managing allegations, liaising with the LADO. Ensuring that at all times.

In the event of an allegation that meets the criteria above, the Principal (or Director of Education/Chief Executive Officer where the Principal is the subject of the allegation) – the ‘case manager’ – will take the following steps:

- The case manager will conduct basic enquiries in line with local procedures and KCSIE to establish the facts to help determine whether there is any foundation to the allegation, being careful not to jeopardise any future police investigation.
- The case manager will immediately discuss with the LADO, the nature, content and context of the allegation and agree on a course of action. Where the case manager deems there to be an immediate risk to children or a criminal offence has been committed, the police will be contacted immediately. All discussions, agreed actions and communications will be recorded in writing using the Staff Allegation/Concern Reporting Form. The LADO should be informed within one day of any allegations made to the case manager and any actions taken.
- If there is cause to suspect a child is suffering, or is likely to suffer significant harm, a strategy discussion involving the police and/or social care will be convened. Cases of suspected abuse will be referred to social care.
- Where the police are involved, the case manager will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the college’s disciplinary process, should this be required at a later point.
- The case manager will ensure that the individual who is subject to the allegation is informed as soon as possible explaining the likely course of action guided by the LADO, and the police where necessary. The case manager/HR will appoint a named representative to keep the person informed about the progress of the case and consider any appropriate support. The individual is also advised they can contact their trade union representation.
- The case manager will ensure that parents of the child or children involved are formally told about the allegation as soon as possible and kept informed of the progress of the case, only in relation to their son/daughter. They will be made aware of the requirement to maintain confidentiality and unwanted publicity about any allegations made against teachers in colleges whilst investigations are in progress. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice.
- The case manager will monitor the progress of the case to ensure that it is dealt with as quickly as possible in a thorough and fair process.
- Careful consideration will be given to whether the circumstances warrant suspension from contact with children at the college, or until the allegation is resolved. It will be considered only in cases where there is cause to suspect a child or other children at the college is/are at risk of harm, or the case is so serious it might be grounds for dismissal. The case manager will maintain contact with the CEO and seek views from HR and the LADO, as well as the police and social care where they have been involved. Where an individual is suspended they will be provided with a named contact, their contact details and written confirmation of their suspension.
- If the initial discussion leads to no further action, the case manager and the LADO will record the decision and justification for it and agree on what information should be put in writing to

the individual concerned as well as what action should follow both in respect of the individual and those who made the initial allegation

- If it is decided that further action is needed, take steps as agreed with the designated officer to initiate the appropriate action in college and/or liaise with the police and/or social care services as appropriate
- The case manager will discuss with the LADO whether a referral to the Disclosure and Barring Service (DBS) and/or the Teaching Regulation Agency (TRA) should be made where an allegation is substantiated and the person is dismissed or the college ceases to use their services, or resigns or otherwise ceases to provide their services.
- The college has a legal obligation to make a referral to the DBS for consideration of whether inclusion on the barred lists is required; where it considers an individual has engaged in conduct that harmed (or is likely to harm) a child or if a person poses a risk to a child
- In the case of a member of teaching staff, the case manager must consider making a referral to the Teaching Regulation Agency (TRA) to consider prohibiting the individual from teaching.

The completed Staff Allegation/Concern Reporting Form, along with any other evidence related to the allegation or concern, will be used to support the initial assessment and inform any referral to the LADO, police, or other relevant external agencies.

All decisions, actions, and outcomes will be documented in the leadership and management section of the form. This record will be stored securely and will be retained within the staff member's personnel file maintained by HR. Access to this information will be strictly limited in line with GDPR procedures and safeguarding.

If the concern arises from a disclosure or allegation made by a child, all related records — including the Staff Allegation/Concern Reporting Form, actions taken, correspondence, and follow-up — will be stored securely on CPOMS, in line with safeguarding and confidentiality procedures.

If we receive an allegation of an incident happening while an individual or organisation was using the college premises to run activities for children, we will follow our safeguarding policies and procedures and inform the LADO.

Suspension of the accused until the case is resolved:

Suspension of the accused will not be the default position and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that it might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

- Redeployment within the college so that the individual does not have direct contact with the child or children concerned
- Providing an assistant to be present when the individual has contact with children
- Redeploying the individual to alternative work in the college so that they do not have unsupervised access to children

- Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents have been consulted
- Temporarily redeploying the individual to another role in a different location, for example to an alternative location or other work for the Society

If in doubt, the case manager will seek views from the college's human resource team, Director of Education, CEO and the designated officer at the local authority, as well as the police and social care where they have been involved

Definitions for outcomes of allegation investigations:

- Substantiated: there is sufficient evidence to prove the allegation
- Malicious: there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive or cause harm to the subject of the allegation
- False: there is sufficient evidence to disprove the allegation
- Unsubstantiated: there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)
- Unfounded: to reflect cases where there is no evidence or proper basis which supports the allegation being made

Additional considerations for supply teachers and all contracted staff:

If there are concerns or an allegation is made against someone not directly employed by the college, such as supply teacher or contracted staff member provided by an agency, we will take the actions below in addition to our standard procedures.

- We will not make a decision to cease using an individual's services solely on the basis of a safeguarding concern without first establishing the relevant facts and consulting with the LADO to determine an appropriate and fair outcome.
- The college leadership team will work in consultation with the agency to determine whether it is appropriate to suspend the individual or redeploy them to another role within the college while the investigation is ongoing.
- The college will take the lead in gathering all necessary information, while ensuring the agency is fully involved in the process. Relevant details will be provided to the LADO as required.
- The college will address matters relating to information sharing to ensure that any previous concerns or allegations known to the agency are considered. This may be done during the allegations management meeting or through direct liaison with the agency, as appropriate.

Timescales:

We will deal with all allegations as quickly and effectively as possible and will endeavor to comply with the following timescales, where reasonably practicable:

- Any cases where it is clear immediately that the allegation is unsubstantiated or malicious will be resolved within 1 week
- If the nature of an allegation does not require formal disciplinary action, we will institute appropriate action within 3 working days
- If a disciplinary hearing is required and can be held without further investigation, we will hold this within 15 working days

However, these are objectives only and where they are not met, we will endeavour to take the right action as soon as possible thereafter

Specific actions:

Action following a criminal investigation or prosecution:

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or social care services.

Conclusion of a case where the allegation is substantiated:

If the allegation is substantiated and the individual is dismissed or the college ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the case manager and the college's HR adviser will discuss with the designated officer whether to make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the college will consider whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

Employer references will include substantiated allegations, provided that the information is factual and does not include opinions.

On conclusion of a case in which the allegation is substantiated, the case manager and the LADO will review the case to determine whether there are any improvements to be made to the college's procedures or practices to help prevent similar events in the future.

Individuals returning to work after suspension:

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this. The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the college.

Unsubstantiated, unfounded, false or malicious reports:

If a report is determined to be unsubstantiated, unfounded, false or malicious the DSL will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children social care may be appropriate.

If an allegation is shown to be deliberately invented, or malicious, the college will consider whether any disciplinary action is appropriate or whether the police should be asked to consider action against an adult.

Details of allegations following an investigation that are found to have been malicious or false will be removed from personnel records, unless the individual gives their consent for retention of the information. For all other allegations a written record of details of the investigation and the outcome

will be retained in the individual's personnel file in line with KCSIE and a copy provided to the individual.

Allegations proven to be unsubstantiated, unfounded, false or malicious will not be included in employer references.

Confidentiality and information sharing:

The college will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the local authority's designated officer, police and social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

Record-keeping:

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above. These records will be stored securely and retained within the staff member's personnel file maintained by HR. Access to this information will be strictly limited in line with GDPR procedures and safeguarding requirements.

If the concern arises from a disclosure or allegation made by a child, all related records — including the Staff Allegation/Concern Reporting Form, actions taken, correspondence, and follow-up — will be stored securely on CPOMS, in line with safeguarding and confidentiality procedures.

The records of any allegations that, following an investigation is found to be malicious or false will be deleted from the individuals personnel file (unless the individual consents for the records to be retained on the file).

For all other allegations (which are not found to be malicious or false), the following information will be kept on the file for individual concerned:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, and decisions reached and the outcome
- A declaration on whether the information will be referred to in any future reference

In these cases, the case manager will provide a copy to the individual, in agreement with social care or the police as appropriate

We will retain all records at least until the accused individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

Learning lessons:

After any cases where the allegations are substantiated, the case manager will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the college's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual.

For all other cases, the case manager will consider the facts and determine whether any improvements can be made.

Non-recent allegations:

Abuse can be reported, no matter how long ago it happened. Non-recent allegations of abuse should be reported to the LADO who will liaise with other agencies. Allegations against a teacher who is no longer teaching should be referred to the police.

Low-level concerns:

The section is based on 'Section 2: Concerns that do not meet the harm threshold' in part 4 of Keeping Children Safe in Education.

All concerns about all adults working in or on behalf of the college (including supply teachers, volunteers and contractors) will be dealt with promptly and appropriately.

The term 'low-level' concern does not mean that it is insignificant, it means that the behaviour towards a child does not meet the criteria indicated in the allegations section above.

A low-level concern is any concern, no matter how small, and even if no more than causing a sense of unease or a nagging doubt.

An adult working in or on behalf of the college may have acted in a way that does not meet the expectation in the staff code of conduct, including conduct outside of college and does not meet the allegations criteria or is not considered serious enough to refer to the LADO.

Such behaviour can exist on a wide spectrum; examples could include, but are not limited to:

- Being overfriendly with children
- Having favourites
- Taking photographs of children on their mobile phone

- Engaging with a child on a one-to-one basis in a secluded area or behind a closed door
- Humiliating children
- Using inappropriate sexualised, intimidating or offensive language towards or in front of a child

Concerns may arise through, for example:

- Suspicion
- Complaint
- Safeguarding concern or allegation from another member of staff
- Disclosure made by a child parent or other adult within or outside the college
- Pre-employment vetting checks

Low-level concerns about a member of staff should be reported immediately to the DSL (Principal). Where the concern is about the Principal, it should be reported to the Director of Education and recorded using the Staff Allegation/Concern Reporting Form (Appendix 3).

Low-level concerns about a supply teacher or contractor should be reported as above. The Principal will notify the employer so that any patterns of inappropriate behaviour can be identified.

All low-level concerns will be recorded by the DSL/Principal using the staff allegation/concern reporting form and stored securely and confidentially. All decisions, actions, and outcomes will be documented in the Leadership and Management section of the form. This record will be stored securely and will be retained within the staff member's personnel file maintained by HR. Access to this information will be strictly limited in line with GDPR procedures and safeguarding requirements.

These records will be reviewed so that any patterns of inappropriate behaviour can be identified and dealt with.

APPENDIX 3: Staff Concern/Allegation Reporting Form.

Staff Concern/Allegation Reporting Form – Guidance & Instructions

Purpose of This Document

This document is designed to help staff record and report any concerns, allegations, or suspicions about the conduct of a college staff member. It forms part of the college's safeguarding, whistleblowing and staff code of conduct procedures, ensuring that all concerns are handled promptly, confidentially, and in line with statutory requirements.

When to Use This Form

It is critical that in the first instance, concerns are immediately raised verbally with the appropriate safeguarding lead.

Following a verbal report, this form must be completed and submitted without delay when:

- You have a safeguarding concern involving a staff member.
- You have witnessed or been informed of alleged misconduct, breach of college policies, or inappropriate behaviour by a staff member.
- You have a whistleblowing concern relating to college operations or staff conduct.
- A child has made an allegation against a member of staff.

Important note – If, at any stage, you believe a child is in immediate danger or at risk of serious harm you must:

- Contact the Designated Safeguarding Lead (DSL) immediately.
- If the DSL is unavailable, contact a Deputy DSL or emergency services (999).
- You must still complete this form, but do not delay immediate safeguarding action.

Reporting Routes

- If the allegation or concern is about a staff member of the college, the principal must be verbally informed immediately. Thereafter, submit this form directly to them, without delay.
- If the allegation or concern is about the Principal, the Director of Education must be contacted immediately. Thereafter, submit this form directly to them, without delay.
- Our Designated Trustee for safeguarding is Rakesh Chopra.

Important Contacts

- Principal and DSL: fay.strong@ne-as.org.uk
- Director of Education: tracey.train@ne-as.org.uk
- Designated Trustee: rakesh.chopra@ne-as.org.uk
- LADO Contact: Durham LADO: 03000 268835
- HR Contact: Ellie.shaw@ne-as.org.uk
- CEO: paul.mcginnety@ne-as.org.uk

Additional Guidance

- Keep your report factual, avoiding assumptions or personal opinions.

- Provide as much information as you can, including attaching any evidence you may have (emails, screenshots, witness names).
- If you are uncertain whether a concern warrants reporting, please follow usual procedure by making a verbal report and submitting this form. The designated staff member will determine whether further action is necessary. You will receive an email acknowledgement of your report.
- Please be assured that all concerns will be treated confidentially in line with GDPR.
- All staff have a professional and legal duty to report any concerns in the best interests of children and colleagues, in accordance with the college's safeguarding policies and procedures. Failure to follow this guidance may result in disciplinary action in line with the Staff Code of Conduct.

APPENDIX 4 – SPECIFIC SAGEGUARDING ISSUES

Thornbeck College will adhere to the advice in Part One and the relevant sections of Keeping Children Safe in Education 2026 and the local multi-agency safeguarding arrangements and procedures published by the Durham Safeguarding Children Partnership (DSCP).

Annex B also includes information on further issues to be aware of, including child abduction and community safety incidents, children involvement in the court system, children with family members in prison, county lines, modern slavery and cybercrime. If you wish to cover these in the policy, consider including:

- An explanation of what the issue is and how your college approaches it (e.g. any preventative measures in place, training you provide for staff)
- What staff should be aware of and actions they should take
- How your college works with external agencies, where relevant

You should also make sure your policy reflects any locally agreed procedures put in place by safeguarding partners.

Assessing adult-involved nude and semi-nude sharing incidents

This section is based on current UK Council for Internet Safety (UKCIS) and Department for Education online safety guidance.

All adult-involved nude and semi-nude image sharing incidents are child sexual abuse offences and must immediately be referred to police/social care. However, as adult-involved incidents can present as child on-child nude/semi-nude sharing, it may be difficult to initially assess adult involvement.

There are two types of common adult-involved incidents: sexually motivated incidents and financially motivated incidents.

Sexually motivated incidents

In this type of incident, an adult offender obtains nude and semi-nudes directly from a child using online platforms.

To make initial contact, the offender may present as themselves or use a false identity on the platform, sometimes posing as a child or young person to encourage a response and build trust. The offender often grooms the child or young person on social media, in chatrooms or on gaming platforms, and may then move the conversation to a private messaging app or an end-to-end encrypted (E2EE) environment where a request for a nude or semi-nude is made. To encourage the child or young person to create and share nude or semi-nude, the offender may share pornography or child sexual abuse material (images of other young people), including AI-generated material.

Once a child or young person shares a nude or semi-nude, an offender may blackmail the child or young person into sending more images by threatening to release them online and/or send them to friends and family.

Potential signs of adult-involved grooming and coercion can include the child or young person being:

- Contacted by an online account that they do not know but appears to be another child or young person

- Quickly engaged in sexually explicit communications, which may include the offender sharing unsolicited images
- Moved from a public to a private/E2EE platform
- Coerced/pressured into doing sexual things, including creating nudes and semi-nudes
- Offered something of value such as money or gaming credits
- Threatened or blackmailed into carrying out further sexual activity. This may follow the child or young person initially sharing the image or the offender sharing a digitally manipulated image of the child or young person to extort 'real' images

Financially motivated incidents

Financially motivated sexual extortion (often known as 'sextortion') is an adult-involved incident in which an adult offender (or offenders) threatens to release nudes or semi-nudes of a child or young person unless they pay money or do something else to benefit them.

Unlike other adult-involved incidents, financially motivated sexual extortion is usually carried out by offenders working in sophisticated organised crime groups (OCGs) overseas and are only motivated by profit. Adults are usually targeted by these groups too.

Offenders will often use a false identity, sometimes posing as a child or young person, or hack another young person's account to make initial contact. To financially blackmail the child or young person, they may:

- Groom or coerce the child or young person into sending nudes or semi-nudes and financially blackmail them
- Use images that have been stolen from the child or young person taken through hacking their account
- Use digitally manipulated images, including AI-generated images, of the child or young person

The offender may demand payment or the use of the victim's bank account for the purposes of money laundering.

Potential signs of adult-involved financially motivated sexual extortion can include the child or young person being:

- Contacted by an online account that they do not know but appears to be another child or young person. They may be contacted by a hacked account of a child or young person
- Quickly engaged in sexually explicit communications which may include the offender sharing an image first
- Moved from a public to a private/E2EE platform
- Pressured into taking nudes or semi-nudes
- Told they have been hacked and they have access to their images, personal information and contacts
- Blackmailed into sending money or sharing bank account details after sharing an image or the offender sharing hacked or digitally manipulated images of the child or young person

Children who are absent from education:

A child going missing from education, particularly repeatedly, can be a warning sign of a range of safeguarding issues. This might include abuse or neglect, such as sexual abuse or exploitation or child criminal exploitation, or issues such as mental health problems, substance abuse, radicalisation, FGM or forced marriage.

There are many circumstances where a child may become missing from education, but some children are particularly at risk. These include children who:

- Are at risk of harm or neglect
- Are at risk of forced marriage or FGM
- Come from Gypsy, Roma, or traveller families
- Come from the families of service personnel
- Go missing or run away from home or care
- Are supervised by the youth justice system
- Cease to attend a college
- Come from new migrant families

For full details about our college's policies in this areas, please refer to our Attendance Policy

We will follow our procedures for unauthorised absence and for dealing with children who go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of going missing in future. This includes informing the local authority if a child leaves the college without a new provision being named and adhering to requirements with respect to sharing information with the local authority, when applicable, when removing a child name from the admission register at non-standard transition points.

Staff will be trained in signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns which may be related to being missing, such as travelling to conflict zones, FGM and forced marriage.

If a staff member suspects that a child is suffering from harm or neglect, we will follow local child protection procedures, including with respect to making reasonable enquiries. We will make an immediate referral to the local authority social care team, and the police, if the child is suffering or likely to suffer from harm, or in immediate danger.

Child criminal exploitation:

Child criminal exploitation (CCE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into criminal activity, in exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator, and/or through violence or the threat of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. It does not always involve physical contact and can happen online. For example, young people may be forced to work in cannabis factories, coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people.

Indicators of CCE can include a child:

- Appearing with unexplained gifts or new possessions
- Associating with other young people involved in exploitation
- Suffering from changes in emotional wellbeing
- Misusing drugs and alcohol
- Going missing for periods of time or regularly coming home late
- Regularly missing college or education
- Not taking part in education

If a member of staff suspects CCE, they will discuss this with DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Child sexual exploitation:

Child sexual exploitation (CSE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity, in exchange for something the victim needs or wants and/or for the financial advantage or increased status of the perpetrator or facilitator. It may, or may not, be accompanied by violence or threats of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. Children or young people who are being sexually exploited may not understand that they are being abused. They often trust their abuser and may be tricked into believing they are in a loving, consensual relationship.

CSE can include both physical contact (penetrative and non-penetrative acts) and non-contact sexual activity. It can also happen online. For example, young people may be persuaded or forced to share sexually explicit images of themselves, have sexual conversations by text, or take part in sexual activities using a webcam. CSE may also occur without the victim's immediate knowledge, for example through others copying videos or images.

In addition to the CCE indicators above, indicators of CSE can include a child:

- Having an older boyfriend or girlfriend
- Suffering from sexually transmitted infections or becoming pregnant

If a member of staff suspects CSE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Child-on-child abuse:

Child-on-child abuse is when children abuse other children. This type of abuse can take place inside and outside of college. It can also take place both face-to-face and online and can occur simultaneously between the 2.

Our college has a zero-tolerance approach to sexual violence and sexual harassment. We recognise that even if there are no reports, which doesn't mean that this kind of abuse isn't happening.

Child-on-child abuse is most likely to include, but may not be limited to:

- Bullying (including cyber-bullying, prejudice-based and discriminatory bullying)
- Abuse in intimate personal relationships between children (this is sometimes known as 'teenage relationship abuse')
- Physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse)

- Sexual violence, such as rape, assault by penetration and sexual assault (this may include an online element which facilitates, threatens and/or encourages sexual violence)
- Sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse
- Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- Consensual and non-consensual sharing of nude and semi-nude images and/or videos (also known as sexting or youth produced sexual imagery)
- Upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm
- Initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)
- Discriminatory behaviour, including racism and faith-targeted abuse

Where children abuse their peers online, this can take the form of, for example, abusive, harassing, and misogynistic messages; the non-consensual sharing of indecent images, especially around chat groups; and the sharing of abusive images and pornography, to those who don't want to receive such content.

If staff have any concerns about child-on-child abuse, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our college's approach to this type of abuse.

When considering instances of harmful sexual behaviour between children, we will consider their ages and stages of development. We recognise that children displaying harmful sexual behaviour have often experienced their own abuse and trauma and will offer them appropriate support.

Domestic abuse:

Children can witness and be adversely affected by domestic abuse and/or violence at home where it occurs between family members. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse (abuse in intimate personal relationships between children) and child/adolescent to parent violence and abuse. It can be physical, sexual, financial, psychological or emotional. It can also include ill treatment that isn't physical, as well as witnessing the ill treatment of others – This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse, including where they see, hear or experience its effects.

Anyone can be a victim of domestic abuse, regardless of gender, age, ethnicity, socioeconomic status, sexuality or background, and domestic abuse can take place inside or outside of the home. Children who witness domestic abuse are also victims.

Older children may also experience and/or be the perpetrators of domestic abuse and/or violence in their own personal relationships. This can include sexual harassment.

Exposure to domestic abuse and/or violence can have a serious, long-lasting emotional and psychological impact on children and affect their health, wellbeing, development and ability to learn.

If police are called to an incident of domestic abuse and any children in the household have experienced the incident, the police will inform the key adult in college (usually the designated safeguarding lead) before the child or children arrive at college the following day. This is the procedure where police forces are part of Operation Encompass

The DSL will provide support according to the child's needs and update records about their circumstances.

Homelessness:

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare.

The DSL and deputies will be aware of contact details and referral routes into the local housing authority so they can raise/progress concerns at the earliest opportunity (where appropriate and in accordance with local procedures).

Where a child has been harmed or is at risk of harm, the DSL will also make a referral to children's social care.

So-called 'honour-based' abuse (including FGM and forced marriage):

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes committed to protect or defend the honour of the family and/or community, including FGM, forced marriage, and practices such as breast ironing.

Abuse committed in this context often involves a wider network of family or community pressure and can include multiple perpetrators.

All forms of HBA are abuse and will be handled and escalated as such. All staff will be alert to the possibility of a child being at risk of HBA or already having suffered it. If staff have a concern, they will speak to the DSL, who will activate local safeguarding procedures.

FGM:

The DSL will make sure that staff have access to appropriate training to equip them to be alert to children affected by FGM or at risk of FGM.

Section 7.3 of this policy sets out the procedures to be followed if a staff member discovers that an act of FGM appears to have been carried out or suspects that a child is at risk of FGM.

Indicators that FGM has already occurred include:

- A child confiding in a professional that FGM has taken place
- A mother/family member disclosing that FGM has been carried out
- A family/children already being known to social services in relation to other safeguarding issues
- A girl:
 - Having difficulty walking, sitting or standing, or looking uncomfortable
 - Finding it hard to sit still for long periods of time (where this was not a problem previously)
 - Spending longer than normal in the bathroom or toilet due to difficulties urinating
 - Having frequent urinary, menstrual or stomach problems
 - Avoiding physical exercise or missing PE
 - Being repeatedly absent from college, or absent for a prolonged period
 - Demonstrating increased emotional and psychological needs – for example, withdrawal or depression, or significant change in behaviour
 - Being reluctant to undergo any medical examinations
 - Asking for help, but not being explicit about the problem
 - Talking about pain or discomfort between her legs

Potential signs that a child may be at risk of FGM include:

- The girl's family having a history of practising FGM (this is the biggest risk factor to consider)
- FGM being known to be practised in the girl's community or country of origin
- A parent or family member expressing concern that FGM may be carried out
- A family not engaging with professionals (health, education or other) or already being known to social care in relation to other safeguarding issues

A girl:

- Having a mother, older sibling or cousin who has undergone FGM
- Having limited level of integration within UK society
- Confiding to a professional that she is to have a "special procedure" or to attend a special occasion to "become a woman"
- Talking about a long holiday to her country of origin or another country where the practice is prevalent, or parents stating that either they or a relative will take the girl out of the country for a prolonged period
- Requesting help from a teacher or another adult because she is aware or suspects that she is at immediate risk of FGM
- Talking about FGM in conversation – for example, a girl may tell other children about it (although it is important to take into account the context of the discussion)
- Being unexpectedly absent from college
- Having sections missing from her 'red book' (child health record) and/or attending a travel clinic or equivalent for vaccinations/anti-malarial medication

The above indicators and risk factors are not intended to be exhaustive.

Forced marriage:

Forcing a person into marriage is a crime. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats, or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological.

It is also illegal to cause a child under the age of 18 to marry, even if violence, threats or coercion are not involved.

Staff will receive training around forced marriage and the presenting symptoms. We are aware of the 'one chance' rule, i.e., we may only have one chance to speak to the potential victim and only one chance to save them.

If a member of staff suspects that a child is being forced into marriage, they will speak to the children about their concerns in a secure and private place. They will then report this to the DSL.

The DSL will:

- Speak to the children about the concerns in a secure and private place
- Activate the local safeguarding procedures and refer the case to the local authority's designated officer
- Seek advice from the Forced Marriage Unit on 020 7008 0151 or fmufco.gov.uk
- Refer the children to an education welfare officer, pastoral tutor, learning mentor, or college counsellor, as appropriate

Preventing radicalisation

- Radicalisation refers to the process of a person legitimising support for, or use of, terrorist violence
- Extremism is the promotion or advancement of an ideology based on violence, hatred or intolerance, that aims to:
 - Negate or destroy the fundamental rights and freedoms of others; or
 - Undermine, overturn or replace the UK's system of liberal parliamentary democracy and democratic rights; or
 - Intentionally create a permissive environment for others to achieve the results outlined in either of the above points

Terrorism is an action that:

- Endangers or causes serious violence to a person/people;
- Causes serious damage to property; or
- Seriously interferes or disrupts an electronic system

The use of threat of terrorism must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause

Colleges have a duty to prevent children from being drawn into terrorism. The DSL will undertake an in depth Prevent awareness training and make sure that staff have access to appropriate training to equip them to identify children at risk.

We will assess the risk to children in our college being drawn into terrorism. This assessment will be based on an understanding of the potential risk in our local area, in collaboration with our local safeguarding partners and local police force.

We will ensure that suitable internet filtering is in place and equip our children to stay safe online at college and at home.

There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. Radicalisation can occur quickly or over a long period.

Staff will be alert to changes in children's behaviour.

The government website Educate Against Hate and charity NSPCC says that signs that a child is being radicalised can include:

- Refusal to engage with, or becoming abusive to, peers who are different from themselves
- Becoming susceptible to conspiracy theories and feelings of persecution
- Changes in friendship groups and appearance
- Rejecting activities, they used to enjoy
- Converting to a new religion
- Isolating themselves from family and friends
- Talking as if from a scripted speech
- An unwillingness or inability to discuss their views
- A sudden disrespectful attitude towards others
- Increased levels of anger
- Increased secretiveness, especially around internet use
- Expressions of sympathy for extremist ideologies and groups, or justification of their actions
- Accessing extremist material online, including on Facebook or Twitter
- Possessing extremist literature
- Being in contact with extremist recruiters and joining, or seeking to join, extremist organisations

Children who are at risk of radicalisation may have low self-esteem or be victims of bullying or discrimination. It is important to note that these signs can also be part of normal teenage behaviour – staff should have confidence in their instincts and seek advice if something feels wrong.

If staff are concerned about a child, they will follow our procedures set out in section 7.5 of this policy, including discussing their concerns with the DSL.

Staff should always take action if they are worried.

Further information on the college's measures to prevent radicalisation are set out in other college policies and procedures, including:

- Prevent Strategy

- Prevent risk assessment
- E-safety policy
- External speaker's policy
- Curriculum policy

Sexual violence and sexual harassment between children in college

Sexual violence and sexual harassment can occur:

- Between 2 children of any age and sex
- Through a group children sexually assaulting or sexually harassing a single children or group of children
- Online and face to face (both physically and verbally)
- Sexual violence and sexual harassment exist on a continuum and may overlap.
- Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same college.
- If a victim reports an incident, it is essential that staff make sure they are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

When supporting victims, staff will:

- Reassure victims that the law is there to protect them, not criminalise them
- Regularly review decisions and actions, and update policies with lessons learnt
- Look out for potential patterns of concerning, problematic or inappropriate behaviour, and decide on a course of action where we identify any patterns
- Consider if there are wider cultural issues within the college that enabled inappropriate behaviour to occur and whether revising policies and/or providing extra staff training could minimise the risk of it happening again
- Remain alert to the possible challenges of detecting signs that a child has experienced sexual violence, and show sensitivity to their needs

Some groups are potentially more at risk. Evidence shows that girls, children with SEN and/or disabilities, and lesbian, gay, bisexual and transgender (LGBT) children are at greater risk.

Staff should be aware of the importance of:

- Challenging inappropriate behaviours
- Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up
- Challenging physical behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them

If staff have any concerns about sexual violence or sexual harassment, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our college's approach to this type of abuse.

Serious violence

Indicators which may signal that a child is at risk from, or involved with, serious violent crime may include:

- Increased absence from college
- Change in friendships or relationships with older individuals or groups
- Significant decline in performance
- Signs of self-harm or a significant change in wellbeing
- Signs of assault or unexplained injuries
- Unexplained gifts or new possessions (this could indicate that the children has been approached by, or is involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation (see above))

Risk factors which increase the likelihood of involvement in serious violence include:

- Being male
- Having been frequently absent or permanently excluded from education
- Having experienced child maltreatment
- Having been involved in offending, such as theft or robbery
- Staff will be aware of these indicators and risk factors. If a member of staff has a concern about a child being involved in, or at risk of, serious violence, they will report this to the DSL.

Checking the identity and suitability of visitors:

All visitors will be required to verify their identity to the satisfaction of staff and to leave their belongings including their mobile phone(s), in a safe place during their visit.

If the visitor is unknown to the setting, we will check their credentials and reason for visiting before allowing them to enter the setting. Visitors should be ready to produce identification.

Visitors are expected to sign the visitors' book and wear a visitor's badge.

Visitors to the college who are visiting for a professional purpose, such as educational psychologists and college improvement officers, will be asked to show photo ID and will be accompanied at all times.

Visitors to the college who are visiting for a professional purpose, who require unsupervised visits, such as, staff from other colleges, offering support to staff who are enrolled in one of their qualifications, i.e. L2 supporting teaching and learn will be asked to show photo ID and will be asked to show their DBS certificate, which will be checked alongside their photo ID; or

All other visitors, including visiting speakers, will be accompanied by a member of staff at all times. We will not invite into the college any speaker who is known to disseminate extremist views and will carry out appropriate checks to ensure that any individual or organisation using college facilities is not seeking to disseminate extremist views or radicalise children or staff.

Missing children:

Our procedures are designed to ensure that a missing children is found and returned to effective supervision as soon as possible. If a child goes missing, we will follow the college's Missing from Education Policy and Procedures. In line with our attendance policies and procedures

Policy review and currency statement

This policy is reviewed annually and sooner where there are changes to legislation, statutory guidance, local safeguarding arrangements, college provision or safeguarding practice. The college will ensure that this policy remains aligned with the current version of Keeping Children Safe in Education, Working Together to Safeguard Children and relevant Durham Safeguarding Children Partnership procedures.
